About Enersize

With its proprietary patent-pending automated software, **Enersize Q+** for leakage management, data collection and analysis, Enersize can provide 10-50% energy savings in industrial compressed air systems. With **Enersize Enterprise**, the customers can measure and monitor several factories centrally. Through the recently acquired **Enersize LEAQS** system, the company has access to more than 9000 leakage management projects, and the associated more than 4000 customers worldwide. The combination of the company's software services can increase the customer's savings in running projects, while generating direct license and project revenue. 90% of the manufacturing industry uses compressed air, which constitutes about 2% of the world's total electricity consumption. Among Enersize's existing customers are one of the world's largest manufacturers of flat screens and well-known car manufacturers and steel mills. The company is headquartered in Helsinki, have a sales offices in Gothenburg and Shanghai and a development office in Lund.

The company is listed on Nasdaq Stockholm First North Growth Market under the ticker: ENERS.
