Nimbus Sport Tender 35 heads to boot Düsseldorf with two major international award nominations

The Nimbus Sport Tender 35 heads to boot Düsseldorf 2027 with nominations for two major international boating awards: European Powerboat of the Year 2027 and the 2027 Motor Boat Awards.

Following its introduction in 2026, the first model in the new Sport Cruiser 35 series has received recognition from two separate international juries. The Sport Tender 35 was nominated for European Powerboat of the Year in the 10 to 14-metre category earlier this year and has now also been named a finalist in the Weekender (open) category of the Motor Boat Awards.

“We head to boot Düsseldorf with great confidence. We designed this boat, and the whole series, around the people onboard. The boat has been extremely well received by the customers and seeing this approach recognised by two international juries shows that the work has really paid off,” says Johan Inden, CEO of Nimbus Group.

European Powerboat of the Year brings together an international jury of boating journalists to evaluate new powerboats across several size categories.

The Motor Boat Awards, organised by the British boating magazine Motor Boat & Yachting, recognise some of the most outstanding new motorboats on the market.

At the heart of the Sport Tender 35 is a new approach to social boating, combining two generous living spaces on deck with the steady, quiet ride of a much heavier boat. The layout is designed to make moving onboard natural and effortless, with large social areas that adapt to different activities throughout the day. Together with its distinctive Scandinavian design, smart functionality and confident handling, it is made for the life you actually live on the water, from a day out to several days onboard.

The winners of both awards will be announced at boot Düsseldorf in January 2027, where Nimbus will also present the world premieres of the 495 Coupé and the Sport Coupé 35, the second model in the 35 series.
