

Johan Eckerdal new Vice President R&D of Coala Life

Coala-Life Group AB (publ), a leading company in cloud-based remote monitoring of heart and lung diseases, today announces the appointment of Johan Eckerdal in the new role Vice President R&D.

Johan has a master's degree in biomedical engineering from Linköping University, Sweden, and has over 20 years of experience of R&D, project management and development of cardiovascular medical devices. Johan held leading developer positions for over 10 years at St Jude Medical and latest five years as CTO of Zenicor Medical Systems.

"We are very happy that Johan joins with both his broad technical experience and a deep sector knowledge and will help our continued development of the CoalaLife solutions designed to support health care providers, patients and individual users in the fight against cardiovascular diseases" say CEO Dan Pitulia

Johan starts his new position latest March 1, 2022

Magnus Samuelsson remains in his position as the company's CTO and continuous to report to the CEO

About us

Coala Life is a medical device company founded in Sweden focusing on cloud-based cardiac and pulmonary diagnostics. The company has developed and launched the Coala Heart Monitor - a multi-award winning, FDA-cleared and CE-approved product platform enabling long-term remote monitoring, analysis and algorithm-based diagnostics of heart and lungs in real-time. The Coala Heart Monitor is mainly marketed to healthcare providers as an Rx solution for use in patient's everyday life and home environment. The company's solutions are based on over 10 years of R&D, and are protected by more than 30 patents. The head office is based in Uppsala, Sweden and since 2019, the US office is based in Irvine, California. More than 350 care providers and 1,000 doctors are connected to the Coala Care Portal.
