Nordic Aqua Partners: Operational update for Q2 2026

Another milestone was reached in Q2 with production on full run-rate for Stage 1+2 combined.

Harvest

Commercial harvest in Q2 amounted to 1,362 tonnes head-on gutted (HOG) with harvest volume skewed towards the end of the quarter. Average harvest weight was 4.4 kg HOG, equivalent to 5.3 kg live weight (LW), with a superior rate of 96%.

Commercial harvest for the first half of 2026 amounts to 2,133 tonnes HOG, with an average harvest weight of 4.4 kg HOG, equivalent to 5.3 kg live weight (LW), with a superior rate of 95%.

Farming

Production during the second quarter of 2026 was 2,294 tonnes bringing the total biomass to 5,644 tonnes, corresponding to full capacity for Stage 1 and 2.

Overall biological performance remains strong with good fish health, no significant maturation and high survival rates.

First half of 2026 production amounts to 4,455 tonnes.

Project

Stage 2 is close to completion as Nordic Aqua now has successfully transferred fish into all grow-out RAS units. The first harvest from Stage 2 fish is expected to be in September 2026.

The full Q2 2026 report will be released on 27 August 2026 at 07:00 CET.
