# Playdigious Originals signs second game for publishing – Linkito

**Fragbite Group AB's (publ) ("Fragbite Group") wholly-owned subsidiary Playdigious has entered into an agreement with Kimeria Games for the publishing of indie game Linkito. This is the second game title contracted under new publishing label Playdigious Originals.**

Playdigious Originals was launched in June 2023 as a new business unit and label for publishing of original indie games on PC and consoles. Playdigious has now entered into an agreement with developer Kimeria Games for the publishing of Linkito, a game planned for release on PC during 2024. This is the second title for Playdigious Originals after the previously announced title Fretless, also releasing on PC later this year.

*"In a short time, Playdigious has successfully established Playdigious Originals and signed three very promising titles for publishing. Today we have the pleasure of announcing the second one, Linkito. I am happy to see this new business unit growing as planned and pegged up for an eventful 2024,"* says Marcus Teilman, President and CEO, Fragbite Group

*"From the very first minutes of the game, Linkito transported us into its world of unique and varied logic puzzles, which we loved straight away! Linkito not only has a wide gameplay, it also supports user-generated content that stimulates community engagement, which will be one of the pillars of our marketing strategy. Linkito is the kind of game that players can stick with for a long time, and it has great potential for long-term commercial success across multiple platforms,"* says Abrial Da Costa, CEO, Playdigious
