

## **Netel signs new framework agreement with Stångåstaden – one of Sweden’s leading housing companies**

**Netel has signed a two-year framework agreement with Stångåstaden regarding the exchange of data networks in Stångåstaden's housing and property portfolio. Stångåstaden is owned by Linköping Municipality and is a new customer for Netel. The agreement means that Netel is now establishing itself in Linköping.**

Stångåstaden plans to renew its fiber network with the goal of implementing a comprehensive upgrade of the network infrastructure, commissioning, and security and electrical measures in all apartments and premises. Stångåstaden's total investment is estimated at around MSEK 200 over a four-year period, enabling a modern and secure network for all residents and businesses.

“This is a strategically important agreement for us because we gain a new significant customer and at the same time establish ourselves in Linköping,” says Jeanette Reuterskiöld, President and CEO of Netel.

The assignment is carried out in close collaboration between Netel's Telekom and Kraft divisions in Sweden, which strengthens the group's overall offering.

“The agreement shows how we create added value through collaboration between our Telekom and Kraft divisions. The combination of these competencies makes us competitive with new customers and in new geographical areas,” concludes Jeanette Reuterskiöld.

### **About us**

---

With over 25 years of experience, Netel is a leader in the development and maintenance of critical infrastructure within Infraservices, Power and Telecom. We are involved in the entire value chain from design, production and maintenance of our customers' facilities.
