

Alzinova presents at Redeye Neurology day

Alzinova AB (publ) (ticker: ALZ) can today announce that newly appointed CEO Tord Labuda will participate and present at Redeye's theme event Neurology on 23 October 2024.

For the seventh consecutive year, Redeye is organizing an event focusing on drug development in neurology and brain diseases. The event starts with an introduction to the topic and then continues with company presentations.

Alzinova's CEO Tord Labuda will present the company and talk about the latest progress at 11.20 am. The event, which takes place on October 23, will be broadcast live and Alzinova's presentation can be seen on Redeye's website live via: <https://www.redeye.se/events/1016173/redeye-theme-neurology-2>

The presentation will also be available on Alzinova's website afterwards via the following link: <https://www.alzinova.com/investors/presentations/>.

About Alzinova

Alzinova AB is a Swedish clinical-stage biopharma company specializing in the treatment of Alzheimer's disease targeting toxic amyloid beta oligomers. The lead candidate, ALZ-101, is being developed as a therapeutic vaccine for the treatment of Alzheimer's. Alzinova's proprietary A β CC peptide™ technology enables the development of disease-modifying treatments that target the toxic amyloid beta oligomers involved in the onset and progression of the disease with high precision. Alzheimer's is one of the most common and devastating neurological diseases globally, with of the order of 40 million people afflicted today. In addition, the antibody ALZ-201 is in preclinical development, and the ambition is to expand the pipeline further. The company's Certified Adviser on Nasdaq First North Growth Market is Mangold Fondkommission AB. For more information about Alzinova, please visit: www.alzinova.com
