About Silex Microsystems

Silex Microsystems is the world's leading pure-play MEMS foundry. The company develops and manufactures advanced microelectromechanical systems (MEMS) on behalf of its customers, integrating mechanical and electronic components to enable high-precision sensing, control, and motion applications. Its customer base includes leading global technology companies, with MEMS used across a wide range of applications, including medical devices, cloud infrastructure, and autonomous vehicles. Silex Microsystems was founded in Sweden in 2000 and today has more than 480 employees. The company's headquarters and manufacturing facility are located in Järfälla, Stockholm. Silex Microsystems is listed on Nasdaq Stockholm under the ticker SILEX.
