

Press release, Gothenburg, October 20, 2023

## Momentum Industrial opens its new operations in Kiruna

**Momentum Industrial – a part of Momentum Group, has now opened its new unit in Kiruna with sales, technical expertise and local warehousing. The establishment strengthens Momentum Industrial's market position as the Nordic region's leading supplier of industrial components and associated services with focus on sustainability.**

“Major investments in the region create many new opportunities also for us. Demand for our products and services from industrial customers in northern Sweden has increased significantly in recent years. Through our establishment in Kiruna, we can now offer local availability and service for both existing and new customers. We are very happy and proud of the establishment in Kiruna, where we, together with our customers, partners and owners, want to contribute to a more sustainable industry,” says Jimmy Norlinder, CEO of Momentum Industrial.

The newly built property is located at Lastvägen 11 in Kiruna, in the same property as SKF Sweden. The unit offers local accessibility of products, know-how from leading manufacturers, customised product training, logistics solutions and on-call service to industrial customers in Malmfälten.

“Our focus is to make our customers' businesses more efficient and sustainable. We do this by offering quality products with high efficiency and a long service life, as well as services that streamline purchasing, inventory management, operational optimisation and preventive maintenance. We look forward to serve our customers in Kiruna to contribute to the growing industry with a focus on sustainability in the region,” says Tobias Bergström, District Manager at Momentum Industrial.
