

OPTICEPT PASSES PERIODIC INSPECTIONS ACCORDING TO ISO 9001:2015 WITHOUT REMARKS

OptiCept Technologies AB (publ) ("OptiCept" or the "Company") has conducted its periodic audit in accordance with ISO 9001:2015. The audit was performed by C1 Certification and resulted in the Company being approved without any remarks.

The certification covers the Company's operations in **Development and sales of method and equipment for food and plant industries**.

ISO 9001 is an internationally recognized standard for quality management systems. Through the periodic inspection, it is verified that the Company's quality management system continues to meet the requirements of the standard and that operations are conducted according to established processes and procedures.

"Passing the periodic control without remarks is proof that our quality management and internal processes are of a high standard. We are in an intensive phase of change and development, which makes the result particularly valuable. It shows that the organization is well prepared and has the ability to maintain structured quality and delivery reliability even during change," says Henrik Nettersand, CEO of OptiCept Technologies.

There are no remarks from the audit, and the Company's ISO 9001:2015 certification therefore remains unconditional.

About Us

OptiCept Technologies AB (publ) provides the food and plant industry with technological solutions that contribute to a more sustainable world and enable climate-smart economic growth. OptiCept optimizes biological processes - Increased extraction from raw material, extended shelf life, reduced waste, and improved quality (taste, aroma, color, nutritional content) of the final product.

The positive effects of technology increase efficiency for our customers, provide better products for the consumers, and minimal impact on our environment. Through patented technology in PEF (pulsed electric field) and VI (Vacuum Infusion), the technology opens up new business opportunities for the food and plant industry worldwide. OptiCept's vision is to contribute to a sustainable world by offering efficient, green, cutting-edge technology that is easy to use in the areas of FoodTech and PlantTech.

The company is located in Lund and the share is traded on the Nasdaq First North Growth Market (ticker: OPTI). The Company's Certified Adviser is Tapper Partners AB.
