

## Maven Wireless granted three new patents in Australia

Maven Wireless, a market leader of groundbreaking solutions for wireless coverage, has been granted three patents from IP Australia. This is an important milestone in Maven Wireless's further expansion in APAC region.

Maven Wireless provides groundbreaking solutions in wireless coverage all over the world. The company offers a unique and comprehensive DAS system with indoor and tunnel coverage. The solutions are unique and future-proof, and supports all relevant technologies from 2G to 5G as well as bluelight services. The company has an active strategy for intellectual property rights, including patents, to protect its proprietary products.

With the new granted patents Maven Wireless possesses 46 patents worldwide and has additionally 26 patent applications still pending. The new Australian patents cover key elements of a digital DAS system but also how to use carrier aggregation and build automatic and redundant DAS systems. These patents support and protects Maven Wireless' business in Australia.
