CEO's comments

Accelerated growth and improved profitability in the second quarter

Nelly reported both higher growth and improved profitability in the second quarter compared to the same quarter in the previous year. Net revenue increased by 15.1% (8.8%) to SEK 361.7 (314.1) million. Operating profit rose to SEK 55.4 (30.5) million, corresponding to an operating margin of 15.3% (9.7%). This positive trend was also reflected in the half-year result, with net revenue increasing 13.6% (2.6%) and operating profit rising to SEK 75.3 (31.9) million.

A growing customer base driven by the right assortment and marketing activities

The favourable development we have seen in the customer base over recent quarters was sustained. Online traffic rose by 8.5% compared to the previous year and the number of orders increased by 14.3%. Continued strong new customer acquisition, combined with an improved repurchase rate, resulted in the number of active customers increasing for the third consecutive quarter. This confirms that our customer offering is attractive and that more effective marketing activities are delivering results.

The 2025 spring and summer collection has performed well, with improvements across several areas, particularly during the second quarter. Priority categories such as jeans, tops, and knitwear accounted for a significant share of the growth, while the return rate improved once again to 28.4% (31.3%), driven by the cross-functional return strategy we continue to implement. The share of sales from Nelly's own brands increased to 54.8% (43.8%), while we also achieved strong growth across many of our external brands. It is worth highlighting that the link between increased sales of our own brands and improved gross margin, which we have historically seen, was not as pronounced in the second guarter. This was due mainly to a deliberate decision to maintain attractive and dynamic pricing for our customers despite higher production costs particularly in Turkey as well as quality improvements we have made on several of our bestselling products. As a result, gross margin decreased slightly in the second quarter to 54.5% (54.7%).

The strong assortment and growing customer base also enabled further improvements in our customer communication during the second quarter. Marketing costs as a proportion of net revenue decreased to 10.0% (13.0%), and profitability per order improved compared to the previous year. We continued to invest in our social channels to strengthen the Nelly brand and build long-term customer loyalty. A larger share of the total advertising budget was allocated to these platforms, and we increased organic content to continuously drive engagement and traffic.

Continued focus on creating a truly differentiated customer experience

The positive customer response we have received is pleasing and gives us confidence that we need to continue to create an even more differentiated and attractive offering. Despite the strong growth that has already been achieved in Nelly's own brands, there is still significant potential to establish our position in more categories, thereby also expanding average basket size. In parallel, we continue to refine our external brand portfolio and will launch several new partnerships with well-known international brands going forward. Alongside these initiatives, we announced at the end of the second quarter that our store concept, which has been so successful in Stockholm, will expand to Denmark this autumn with a flagship store on Strøget, Copenhagen's busiest shopping street. We have an exciting autumn ahead of us.

As always, I would like to conclude with a heartfelt thank you – to all our incredible customers, both new and returning, and of course to the entire Nelly team. I never cease to be impressed by the creativity, talent, and dedication I'm surrounded by every day, and I'm proud of everything we have achieved together.

H. Kalineles - Ostunde Helena Karlinder-Östlundh, CEO of Nelly Group AB

This is Nelly

The Nelly brand

Nelly is one of the best-loved fashion destinations for young women in the Nordic region. Nelly was founded in 2004 in Borås, the heartland of the Swedish textile and e-commerce industries, as a pioneer in influencer marketing and direct digital sales to customers. We now have a committed customer base consisting mainly of young women in the Nordic region. We have 1.4 million followers of our social media profiles. We offer our community daily inspiration in terms of trends and looks from our own brands and carefully selected supplementary brands from an international portfolio.

Men's clothes have been part of our offer since 2008. The men's department was separated out in 2014, and the NLY Man site was launched, a fashion destination for young men offering clothes, shoes and accessories from the most popular brands for all occasions.

Efficient operations enable the customer experience

Our target audience has grown up with digital media, and e-commerce is second nature. We have a million active customers in the Nordic region who place 1.9 million orders a year via our website or our app. They choose Nelly on account of our reasonably priced, trend-aware, attractive offering. Our fashion- and customer-focused organisation analyses and engages with our target audiences daily from our hub in Borås. Here, we have invested in a high-capacity automated warehouse, which has reduced delivery and distribution costs, improved the delivery experience and reduced our environmental footprint.

Celebrating the Nelly generation of young women

Nelly is not only a fashion brand. Nelly.com is not only a fashion destination. We are an integral part of young women's everyday life, giving them inspiration to find their entire look both for everyday wear and special occasions.
