This information was submitted for publication, through the agency of the contact persons set out above, on August 17, 2022, at 07:00 (CEST).

**About BICO**

Founded in 2016, BICO (formerly CELLINK) is the world's leading bioconvergence company, with three business areas: Biosciences, Bioautomation, and Bioprinting. BICO reduces the organ shortage and speeds up drug development by providing accessible life science solutions that combine biology and technology, fundamentally shifting the global healthcare industry. Using a combination of robotics, artificial intelligence, advanced genomics, and 3D bioprinting, our innovative technologies enable researchers and practitioners in the life sciences to conduct cell line development in 3D, perform high-throughput drug screening and diagnostics, and print human tissues and organs for the medical, pharmaceutical, and cosmetic industries. BICO is the future of life-saving treatments, as we enable our customers to improve people's health and lives. Our products are trusted by more than 3,500 laboratories, including the top 20 pharmaceutical companies. We have more than 32,000 instruments in the field in over 65 countries and have been cited in over 11,000 publications. BICO is listed on Nasdaq Stockholm under BICO.
