

## Tangiamo: Abbiati to showcase live table innovations at ICE Barcelona 2026

**Industry outlet Inside Asian Gaming reports that Abbiati Casino Equipment will present its latest live table game innovations at ICE Barcelona 2026 (19–21 January) at Booth #3T40. Tangiamo is specifically referenced as part of the booth showcase to "...demonstrate its Dice Shaker, featuring optional automated dice recognition (iADR) technology for added accuracy and game integrity."**

ICE is one of the industry's most important venues for casino equipment and table game innovation. Being included in Abbiati's booth narrative underscores continued market interest in solutions that improve game integrity, operational control, and automation across live table environments.

Tangiamo's iADR technology and dice shaker solutions have previously been presented in collaboration with Abbiati at ICE, providing a platform to demonstrate product capabilities to operators and industry stakeholders.

"Our ongoing presence with Abbiati at ICE reflects a long-term product and market collaboration. We continue to prioritize practical deployments where iADR can strengthen accuracy and integrity at the table without disrupting established casino workflows," says Chris Steele, CEO with Tangiamo.

Tangiamo and Abbiati have an established commercial relationship, including Abbiati's role as a distributor for Tangiamo's iADR dice shaker solutions.
