

PRESS RELEASE

11 August 2026 08:00:00 CEST

H100 Group AB appoints Eirik Grøttum as new Chief Executive Officer

H100 Group AB (“H100” or the “Company”) has today appointed Eirik Grøttum as the Company’s new Chief Executive Officer, effective immediately. Johannes Wiik, who has served as Chief Executive Officer since September 2025, will transition to the role of Chief Operating Officer, the position he held prior to becoming CEO.

Eirik Grøttum joins H100 as CEO following the Company’s acquisition of Never Say Die AS and Moonshot AS, where he served as Chief Executive Officer. Prior to the transaction, Eirik, together with H100’s Chief Investment Officer Peter C. Warren, was responsible for managing the Bitcoin holdings of Geir Harald Hansen, H100’s largest shareholder, through Moonshot AS.

Eirik brings extensive experience across technology, fintech, systematic trading, and digital assets. Through the acquisition, H100 also welcomes a highly specialized team of fintech and software developers, significantly strengthening the Company’s technology capabilities and financial expertise. Eirik’s appointment as CEO is a natural next step as the organizations are integrated.

Johannes Wiik will remain a key member of H100’s executive management team as Chief Operating Officer. In this role, he will continue to hold a strategically important position across the Company’s operations, corporate development, capital markets activities, and strategic transactions.

Sander Andersen, Executive Chairman of H100 Group AB, commented:

"The transaction has brought together two highly complementary teams and significantly strengthened H100’s technology capabilities. As a technology company with Bitcoin at the core of our treasury strategy, it is natural that our leadership structure reflects the capabilities of the combined group.

Our focus is to put the right people in the right positions to create the most value for H100 and its shareholders. Eirik’s deep technology, fintech and digital asset expertise makes him a natural fit to lead the Company into its next phase. Johannes is an exceptional executive who has been instrumental in H100’s development and will continue in a strategically important role as COO. I believe this structure allows us to make the best use of the strengths across our combined team."

Eirik Grøttum, Chief Executive Officer of H100 Group AB, said:

"I am very excited to take on the role as CEO of H100. The combination has brought together a strong team with broad capabilities across technology, fintech, Bitcoin and capital markets, and I believe we have a significant opportunity to build on that foundation. I look forward to working closely with Sander, Johannes and the entire H100 team to execute on our ambitions and create long-term value for our shareholders."

Johannes Wiik, Chief Operating Officer of H100 Group AB, said:

"I am very pleased to welcome Eirik as CEO and look forward to working closely with him. Returning to the COO role is a natural step as we bring the organizations together and position H100 for its next phase. I remain fully committed to H100 and look forward to continuing to execute on our strategic priorities together with Eirik, Sander and the broader team."

About Eirik Grøttum

Eirik Grøttum has a background spanning technology, systematic trading, software development and asset management. Prior to his appointment as CEO of H100, he served as CEO of Moonshot AS. His key experience includes:

- **Technology and software development:** Extensive experience in software engineering, full-stack development and technology leadership.
- **Systematic trading and asset management:** Experience in quantitative trading, investment management and portfolio management, including as Director and Portfolio Manager at SQA Asset Management AS.
- **Entrepreneurship and leadership:** Co-founder and senior executive of several technology and trading companies, including Kode Oslo AS and PDI AS.
- **Education:** Informatics, University of Oslo.
