ORTELIUS MOVES TO HALF-YEARLY REPORTING WITH IMMEDIATE EFFECT AND WILL NOT PUBLISH A REPORT FOR THE THIRD QUARTER OF 2026

The Board of Directors of Ortelius International AB (publ) ("Ortelius" or the "Company") has resolved that the Company will move from quarterly to half-yearly financial reporting with immediate effect. The Company will therefore not publish an interim report for the period January–September 2026. The next financial report will be the year-end report for 2026. The Company's financial calendar has been updated.

This is an unofficial translation of the Swedish press release. In the event of any discrepancy between the Swedish original and this English translation, the Swedish version shall prevail.

Under the Nasdaq First North Growth Market Rulebook, companies whose shares are traded on First North must report on a half-yearly basis through a half-year report and a year-end report. Quarterly reporting is voluntary. Ortelius has until now reported quarterly.

The decision is based on the Company's financial position. The quarterly reports are voluntary and are prepared with the help of external providers. The Company currently does not have the financial means to bear the cost of reporting that is not mandatory. With this change, the Company reports in accordance with the basic requirements of the rulebook.

"In Ortelius's current situation, every krona must be prioritised. It cannot be justified to spend money on reports that are not mandatory. Half-yearly reporting is what the rules require, and we will continue to keep the market informed of everything material on an ongoing basis," says Herman Weberg, acting CEO and CFO of Ortelius.
