## Fasadgruppen to carry out two new renovation projects for Oslo's municipal housing company

**Fasadgruppen's subsidiary DVS Entreprenør has signed two contracts with Oslo's municipal housing company Boligbygg Oslo KF comprising extensive renovations of two multi-family properties in Oslo.**

The two projects include façade renovation and window and roof replacement. The City of Oslo has very strict environmental requirements on the process and both projects will be categorised as fossil-free construction sites according to the guidelines published by the Norwegian Environment Agency. The projects will be completed in 2022 and the order value amounts to approximately NOK 48 million.

Leif Erik Mortensen, CEO of DVS Entreprenør said: "Municipal housing companies in Norway have reached very far in regards of environmental measures in their procurements, and we are happy to be able to meet the requirements. In addition to ensure as little environmental impact as possible in the actual projects, the measures performed on the properties will result in significantly improved energy performance."
