CEO letter

Focus on the core – We're building a strong foundation to stand on

When I took on the role as CEO of Kjell Group, I knew we were entering a challenging period. We've been in a downward spiral for quite some time, and we're now in a situation where we can't just alleviate symptoms—we need to implement substantial changes.

Retail isn't rocket science—it's largely about execution. In an industry with low margins, there's no room for sloppiness. An efficient machine provides visibility: you see where things get stuck and what's wrong. We've been running our machine for too long without that insight. Over the past few months, we've dug deep, identified our problems, and prioritized actions to restore profitability and our ability to generate cash flow.

As a company, our greatest asset isn't found on the balance sheet—it's in our store sales staff. The unique knowledge and service they deliver every day is invaluable. The trust built over more than 35 years, through generations of store employees, is an asset that money can't buy. It's something you earn through years of consistently high expertise and service.

But even the strongest brand needs care. During this challenging period, our product range has become too broad and unclear, while margins have declined. We now need to take action to restore this.

The electronics retail market is fiercely competitive, but there's a niche where our soul and strength lie: accessories for the everyday tech products we use daily. Accessories may not always be spectacular, but many great ideas aren't—they solve everyday problems, and that's exactly what we want to do for our customers.

That's why one of our most important initiatives is the comprehensive product range review we're currently in the middle of, where we're identifying both what should and shouldn't be part of our assortment. As part of this review, we've chosen to make a one-time inventory write-down of approximately MSEK 74. This write-down has no cash flow impact and concerns older items or products that will no longer be part of our range. We're also in the process of renegotiating all our supplier agreements. It's a major undertaking, but absolutely necessary.

Given the scope of the assortment and supplier work, and to ensure we achieve results as quickly as possible, we've also chosen to bring in external support to carry out the work. This will result in one-time costs for the improvements we manage to implement, but nothing that affects this quarter.

We've also launched several other initiatives aimed at evaluating our sales channels, organizational structure, ensuring we have the right competencies to drive the transformation in the coming years, and reviewing our overall cost base. In addition, we're preparing for the move to our new warehouse, which will take place early next year.

All initiatives aim to bring us back to strengthening the customer experience and achieving a margin level we can be proud of.

At this stage, we believe it's too early to quantify the initiatives we've launched, both in terms of expected improvements and anticipated one-time costs, but our ambition is to provide guidance in the next quarterly report.

Focusing on the right things also means having to choose not to pursue certain things, and in some cases, shelving good ideas until we have the conditions to succeed with them. In line with this, a

write-down of the goodwill related to AV-Cables, the Danish company we acquired in 2021, has been made this quarter. The conditions for the company's development are different than at the time of acquisition, which is now also reflected in our balance sheet. Remaining is a value related to the company's brand. We intend to return with a plan for AV-Cables in the next quarter.

Looking at the underlying operational development in the company during the third quarter, we see that sales decreased by 5.4%. The decline is attributed to the sales performance of AV-Cables, which dropped by 48.9% in local currency. For Kjell & Co, sales in Sweden were on par with the previous year, while we saw underlying growth in Norway, where sales increased by 3.8% in local currency. Sales performance improved throughout the quarter and was strongest in September. The focus this year has been on driving a higher gross margin, which is also reflected in this quarter, where the underlying gross margin—excluding the inventory write-down—increased by 1.2 percentage points.

Looking ahead, I see great opportunities for Kjell—in our stores, in our online business, and in B2B. There's a lot to develop. Right now, it's about focusing on the core: the customer and doing the hard work right. We must have a relevant assortment, be in the right place, and deliver world-class service. This will require hard work and sometimes tough decisions. But we owe it to our history, our customers, and generations of Kjell enthusiasts to honor the brand—and to ensure we're around for at least another 35 years

Malmö, 2025-10-22

Sandra Gadd CEO

Summary of the Group's financial performance

Net sales

Net sales decreased by 5.4% to MSEK 590.9 (624.3) in the quarter and by 7.1% to MSEK 1,681.9 (1,810.1) for the period. Comparable growth amounted to 4.7% (-3.6%) in the quarter and -6.7% (0.5%) for the period.

Net sales in segment Sweden increased by 0.3% to MSEK 454.8 (453.2) for the quarter. For the period, sales decreased by 3.1% to MSEK 1,257.7 (1,297.8). The sales increase in Sweden during both the quarter and the period is explained by higher sales in the shop-in-shop concept, driven by the collaboration with EKO. Sales in service points and online declined slightly in the quarter and the period compared to the previous year due to fewer transactions resulting from reduced customer traffic, which was partly offset by increased revenue per transaction.

Net sales in segment Norway increased by 0.4% to MSEK 101.2 (100.8) for the quarter. For the period, sales increased by 3.1% to MSEK 287.8 (279.2). In local currency, sales increased by 3.8% for the quarter and 7.1% for the period. The sales increase in the quarter is explained by higher revenue per purchase occasion, which was partly offset by fewer transactions due to lower online visitor numbers. For the period, the sales increase is attributable to higher revenue per purchase occasion but negatively impacted by fewer online transactions.

Net sales in segment Denmark decreased by 50.4% and amounted to MSEK 34.9 (70.3) in the quarter. For the period, sales decreased by 41.5% to MSEK 136.4 (233.2). In local currency, sales declined by 48.9% for the quarter and 39.8% for the period. The reduced sales in both the quarter and the period are primarily attributable to a lower number of transactions.

Operating expenses

Operating expenses increased by 52.8% to MSEK 931.4 (609.5) in the quarter and by 12.9% to MSEK 2,053.0 (1,819.2) for the period.

Cost of goods sold increased by 12.7% in the quarter to MSEK 419.2 (371.9) and decreased by 1.6% in the period to MSEK 1.050.5 (1.067.7).

Gross profit amounted to MSEK 171.7 (252.5) for the quarter, a decrease of 32.0%, and MSEK 631.4 (742.4) for the period, a decrease of 15.0%. Gross margin was 29.1% (40.4%) in the quarter and 37.5% (41.0%) for the period. The decline in gross margin is due to one-time inventory write-downs of MSEK 74.2, where older and discontinued products were written down, related to the ongoing assortment review as part of the current action program. Excluding one-time write-downs, the normalized gross margin was 41.6% (40.4%) in the quarter and 42.0% (41.0%) for the period.

Personnel costs amounted to MSEK 121.8 (116.5) in the quarter and MSEK 373.7 (377.3) for the period, representing an increase of 4.6% in the quarter and a decrease of 1.0% for the period. The increase in the quarter is attributable to restructuring costs of MSEK 5.1, entirely consisting of paid leave during changes in the management team. Previously implemented restructuring within central functions contributed to reduced personnel costs for the period. This was partly offset by higher costs in the store network due to investments in staff development and general wage indexation compared to the same period last year.

Other external costs amounted to MSEK 73.9 (71.3) in the quarter and MSEK 222.7 (224.1) for the period, representing an increase of 3.6% in the quarter and a decrease of 0.6% for the period. The increase in other external costs in the quarter is primarily due to higher marketing expenses and costs related to the new central warehouse in Staffanstorp. The decrease

in the period is an effect of previously implemented restructuring and integration of AV-Cables.

Other operating expenses amounted to MSEK 0.0 (2.5) in the quarter and MSEK 0.0 (5.8) for the period. Other operating income amounted to MSEK 0.4 (0.0) in the quarter and MSEK 4.7 (2.6) for the period, primarily consisting of foreign exchange gains and investment grants.

Total depreciation and amortization amounted to MSEK 316.6 (47.3) in the quarter and MSEK 406.1 (144.2) for the period, of which MSEK 275.7 (4.7) in the quarter and MSEK 284.8 (14.1) in the period relate to impairments of intangible assets arising from the acquisition of AV-Cables. During the quarter and period, an impairment of the subsidiary AV-Cables was made following a business review initiated to improve the company's profitability. This review identified a need to write down goodwill, brand, and software related to the acquisition of AV-Cables. The impairment covers 100% of the goodwill related to the acquisition and has no cash flow impact. Remaining excess values for brand and customer relationships amount to MSEK 41.9.

Depreciation of right-of-use assets in accordance with IFRS 16 amounted to MSEK 32.0 (33.3) in the quarter and MSEK 96.0 (99.2) for the period.

The quarter includes items affecting comparability of MSEK 81.1 (1.4) and MSEK 86.8 (8.1) for the period. These items are primarily related to inventory writedowns and restructuring costs associated with personnel changes. Impairments of intangible assets related to AV-Cables of MSEK 271.8 are considered items affecting comparability but do not impact FBITDA.

Total foreign exchange effects in the quarter amounted to MSEK -0.5 (-2.5) and MSEK 3.5 (-5.8) for the period.

Net sales (MSEK)

¹Sales before deduction for customer loyalty bonuses

Adjusted EBITA

The Group's adjusted EBITA amounted to MSEK 16.7 (21.0) for the quarter and MSEK 5.2 (15.7) for the period, corresponding to an adjusted EBITA margin of 2.8% (3.4%) for the quarter and 0.3% (0.9%) for the period.

Operating profit

The Group's operating profit (EBIT) amounted to MSEK -340.2 (14.9) for the quarter and MSEK -366.4 (-6.5) for the period, corresponding to an operating margin of -57.6% (2.4%) for the quarter and -21.8% (-0.4%) for the period.

Net financial items

The Group's net financial items amounted to MSEK - 7.8 (9.7) for the quarter and MSEK - 24.7 (-29.1) for the period. Net financial items include MSEK 2.6 (2.6) for the quarter and MSEK 8.1 (7.7) for the period in interest expenses related to lease liabilities.

Tax

Tax for the quarter amounted to MSEK 3.4 (-1.0) and MSEK 5.0 (-0.3) for the period, primarily attributable to adjustments of deferred tax in connection with the impairment of intangible assets related to AV-Cables.

Net profit

The result amounted to MSEK -344.5 (4.2) for the quarter and MSEK -386.1 (-35.9) for the period.

Cash flow

Cash flow for the third quarter increased and amounted to MSEK 60.6 (-49.6), and for the period to MSEK -40.7 (-123.6). The improvement in the quarter is primarily attributable to cash flow from operating activities, while the deterioration for the period is due to cash flow from investing activities.

The Group's cash flow from operating activities amounted to MSEK 103.2 (-12.2), and for the period to MSEK -24.3 (-4.2). The increased cash flow from operating activities compared to the previous year is mainly due to reduced inventory binding and increased accounts payable. Excluding changes in net working capital, cash flow from operating activities was MSEK 42.1 (50.1) for the quarter and MSEK 80.4 (100.0) for the period. The result before tax and

adjustments for non-cash items includes the impairment of the AV-Cables subsidiary and inventory write-downs.

Cash flow from investing activities amounted to MSEK -10.6 (-2.7) for the quarter and MSEK -89.8 (-12.3) for the period. The period includes a partial payment of MSEK 64.0 for the new automated central warehouse. Cash flow from financing activities in both the quarter and the period also includes capitalized costs related to the development of the new warehouse.

Cash flow from financing activities amounted to MSEK -32.0 (-34.7) for the quarter and MSEK 73.3 (-107.2) for the period. Cash flow from financing activities during the quarter and period consists of lease liability amortizations and bank financing in accordance with agreements. The period also includes the completed rights issue of MSEK 199.1 (MSEK 185.6 after transaction costs).

Financial position

The Group's cash and cash equivalents amounted to MSEK 132.2 at the end of the reporting period, compared to MSEK 178.8 at the beginning of the year.

Long- and short-term interest-bearing liabilities amounted to MSEK 485.2 (500.3) at the end of the quarter, and lease liabilities amounted to MSEK 181.7 (210.3). The long-term interest-bearing liabilities have been reclassified as short-term since the current financing agreement expires in September 2026.

The Group's net financial debt amounted to MSEK 353.0 (428.5) at the end of the quarter, compared to MSEK 321.6 at the beginning of the year, corresponding to a net financial debt in relation to rolling 12-month adjusted EBITDAaL of 5.6 (5.7).

The Group's equity amounted to MSEK 790.0 at the end of the reporting period, compared to MSEK 1,005.4 at the beginning of the year.

Core working capital at the end of the quarter decreased compared to the previous year and

amounted to MSEK 148.1 (203.6). The decrease is affected by the one-time inventory write-down. Core working capital as a share of net sales R12 decreased to 6.0% (7.9%).

Significant events during and after the quarter

- Impairment of goodwill and inventory affects the result for the third quarter of 2025.
- Kjell Group prepares for the future by adjusting its workforce to align with the new central warehouse.
- Kjell & Company moves into IKEA opening stores in Kalmar and Kungens Kurva.
- Sandra Gadd assumes the role of CEO.
- Fredrick Sjöholm is appointed new CFO of Kjell Group.

Financial targets

Sale

Net sales growth is to exceed 5 percent.

Profitability

Adjusted EBITA-margin in the range of 6–8 percent.

Financial position

Net debt in relation to adjusted EBITDA, rolling 12 months (excluding the effects of IFRS 16) is to be a multiple of less than two (2).

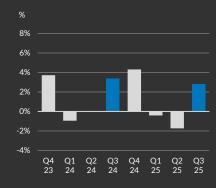

Dividend policy

Dividends are to comprise at least 60 percent of earnings per share after tax, taking into account the Group's financial position and growth potential

Adjusted EBITA (MSEK)

Adjusted EBITA-margin

Parent company

The object of the Parent company's operation is to own and manage shares in subsidiaries and to provide intra-Group services.

Net sales

The parent company's net sales amounted to MSEK 8.2 (6.5) for the quarter and MSEK 20.6 (21.5) for the period, entirely related to intra-group invoicing.

Operating expenses

Operating expenses for the quarter amounted to MSEK 11.4 (7.8) and MSEK 25.2 (25.7) for the period.

Personnel costs increased and totaled MSEK 10.1 (6.2) for the quarter and MSEK 20.4 (20.9) for the period. The increase in personnel costs during the quarter is attributable to one-time restructuring costs. The decrease in personnel costs for the period is due to cost savings following restructuring carried out in 2024, where the management team was reduced from six to five members compared to the same quarter last year.

Other external costs amounted to MSEK 1.1 (1.7) for the guarter and MSEK 4.4 (4.8) for the period.

Other operating expenses amounted to MSEK 0.1 (-) for the quarter and MSEK 0.4 (-) for the period.

Interest expenses related to the Group's credit facility impacted the quarter by MSEK 5.6 (7.2) and the period by MSEK 16.5 (22.9).

Profit after financial items amounted to MSEK -7.1 (-7.9) for the quarter and MSEK -17.7 (-23.5) for the period.

Net profit

The result amounted to MSEK -7.0 (-7.9) for the quarter and MSEK -17.6 (-23.6) for the period.

Financial position

Financial non-current assets amounted to MSEK 1,621.7 (1,616.0).

Short-term receivables amounted to MSEK 118.8 (167.0), largely consisting of intra-group balances.

The parent company's equity amounted to MSEK 1,302.6 at the end of the reporting period, compared to MSEK 1,132.6 at the beginning of the year.

Long- and short-term interest-bearing liabilities amounted to MSEK 427.0 (430.8) at the end of the quarter. Other operating liabilities are primarily related to intra-group balances.

The share

Kjell Group AB's (publ) share is listed on Nasdaq First North Growth Market under the ticker KJELL, with the ISIN SE0016797591.

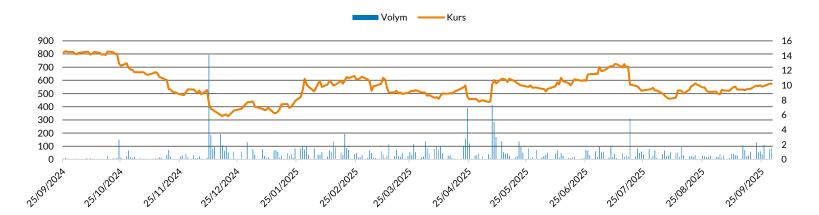

The highest and lowest share prices during the quarter were SEK 13.60 and SEK 8.12 on 8 July and 8 August, respectively.

A total of 3,343,574 shares were traded during the quarter, corresponding to a turnover rate of 5.6 percent during the measurement period.

As of 30 September 2025, Kjell Group AB (publ) had approximately 4,200 shareholders, the largest of which were Cervantes Capital (12.18%), the Eklund family (10.98%), Jofam AB (10.05%), Nordea Fonder (7.13%) and Futur Pension (5.68%).

The number of shares issued as of 30 September 2025 was 59,187,876, all of which were common shares.

Condensed notes to the financial statements

Note 1 General information

Kjell Group AB (publ) (the "company"), Corp. Reg. No. 559115-8448, is a company with its registered offices in Malmö, Sweden. These consolidated interim financial statements for the Group ("interim report") for the period January–September 2025 encompass the company and its subsidiaries, referred to jointly below as the "Group." The Group's consolidated accounting currency is SEK. All of the amounts are presented in thousands of SEK (TSEK), unless otherwise stated.

Note 2 Accounting policies

This interim report has been prepared in accordance with IAS 34 Interim Financial Reporting and the applicable provisions in the Swedish Annual Accounts Act, and should be read together with the Group's annual report for 2024. The interim report for the Parent Company has been prepared in accordance

with Chapter 9 of the Swedish Annual Accounts Act, Interim Report. This interim report does not contain all the information required for comprehensive reporting in accordance with IFRS. However. explanatory notes have been included to explain events and transactions that are material for understanding the changes in the Group's financial position and performance. The accounting policies applied in this interim report are the same as those applied in the annual reports for 2024 for both the Group and the Parent Company. The Group did not apply any new IFRS or new interpretations published by the IFRS Interpretations Committee in advance. Issued standards and interpretations that have not vet come into effect are not expected to have any material impact on the Group.

Note 3 Important estimates and judgements

The management of the Group makes estimates and assumptions about the future, and makes judgements on which accounting policies should be applied to the preparation of the financial statements. Estimates and judgements are reviewed continuously and assumptions are based on historical experience and other factors, including expectations of future events considered reasonable under the prevailing circumstances. The resulting accounting estimates will, by definition, seldom correspond to the actual results. The material estimates made by management when applying the Group's accounting policies and the most important sources of uncertainty in the estimates are the same as those described in Note 33 of the Group's annual report for 2024.

Note 4 Revenue and operating segments

The Group's operations are divided into operating segments based on the parts of the organisation monitored by the company's chief operating decision maker, known as the management approach. For the company, this means that the Group's operations are divided into three segments: Sweden, Norway and Denmark, which correspond to the operations in each country. The segments encompass sales via service points in Sweden and Norway and onlinegenerated sales in all countries. Segment Denmark includes Danish online sales in Sweden. Segment Sweden includes costs for Group-wide functions, including the purchasing organisation in Shanghai, since this reflects how the segments are monitored internally by the Group. All revenue for the segments is from sales to external customers. The same accounting policies are applied to the segments as for the Group. The performance measure recognised for the segments is "Adjusted EBITA." Information about each reportable segment is provided below.

Note 5 Earnings per share

Earnings per share are calculated as net profit for the period divided by the weighted average number of shares during the period.

Note 6 Impairment of intangible assets

The performance of the Danish business has been declining throughout 2024 and 2025, with sales and earnings falling short of expectations. The primary reason is that the conditions underpinning the business model at the time of the AV-Cables acquisition are no longer present. This has affected the company's ability to operate according to the original plan. A change in the e-commerce platform has further complicated the situation, and the conversion rate has decreased despite improvement initiatives.

Taken together, this has led to an impairment test of AV-Cables as a cash-generating unit in accordance with IFRS 8.

The impairment test resulted in a write-down of goodwill of MSEK 260.5, a write-down of brand value of MSEK 10.1, and a write-down of software of approximately MSEK 1.2. The recoverable amount of the Danish business is its value in use. The pre-tax discount rate used at the time of testing was 17.6% (14.9%).

Further information regarding the accounting principles and assumptions used in the impairment tests can be found in the Group's Annual Report for 2024.

Note 7 Fair value of financial instruments

The fair value of the liabilities in the Group's credit facility is estimated at TSEK 479,970 (501,914), compared to the carrying amount of TSEK 485,206 (499,047). The facility carries a floating interest rate plus a margin. According to management's assessment, there has been no change in credit

margins since the loan agreement was entered into that would materially affect the fair value of the loans. The difference between fair value and carrying amount is therefore mainly attributable to the fact that the carrying amount includes transaction costs that have not yet been amortized as part of the effective interest rate on the bank loans.

The fair value belongs to Level 2 in the fair value hierarchy. The carrying amount of all other financial liabilities and financial assets is considered a reasonable approximation of their respective fair values.

The long-term interest-bearing liabilities have been reclassified as short-term since the current financing agreement expires in less than 12 months

Note 8 Seasonal variations

The Group's operations are impacted by the effect of seasonal variations on demand and the Group's revenue also displays seasonal variations, with higher sales figures normally reported in the fourth quarter of the financial year compared with other quarters.

Note 9 Risks and uncertainties

The development of the Group is increasingly being impacted by consumer behaviour in the markets where we operate. To ensure that we maintain a continually attractive offering to our customers and thereby ensure the company's competitiveness, the development of the business environment must be understood and monitored. The Group works continuously to identify, measure and manage risks that may arise in the business environment, the industry and the company. The aim is to avoid and minimise the impact of risk-related occurrences.

The Group carries out continuous efforts to assess its risk situation by systematically identifying strategic, operating and financial risks. The risks are identified, assessed and managed based on priority, which highlights the greatest negative impacts on the operations. The risk assessment then forms part of

the strategic and operational management of the Group.

From both a short- and a long-term perspective, strategic risks mainly include risks associated with changes in the operating environment and increased competition, technology shifts and customer purchasing behaviour, market position, assortment and offering, and growth. Operating risks mainly comprise risks associated with purchasing, inventories, sustainability, IT systems, logistics and transportation, employees, leases, waste and regulatory risks. Financial risks comprise risks associated with currency exposure, interest-rate exposure and undercapitalisation.

The Group's Board of Directors and management have continuously monitored the development of these material risks and uncertainties. A more detailed description is available in the annual report for 2024. At the time of publication of this interim report, the business environment continues to be characterised by geopolitical turbulence. The Group has no direct exposure to these markets. However, evaluations are continually being made of the potential negative impact on demand for the Group's products due to declining consumer confidence stemming from indirect effects such as higher energy prices, rising interest rates, increased inflation and tariffs.

Note 10 Other disclosures

Long-term incentive program

At the Annual General Meeting held on May 21, 2025, it was resolved to adopt the Board's proposal to implement a long-term incentive program (2025) in the form of a performance share savings program. To participate in the program, participants are required to acquire shares in Kjell Group AB, referred to as "savings shares." Participants who retain their savings shares throughout the vesting period of approximately three years and remain employed by Kjell & Company during the entire period will be eligible to receive performance shares at no cost, provided that a performance criterion is met.

The performance criterion relates to the total shareholder return (TSR) of the Company's share during the vesting period of approximately three years.

Following final allocation, this will result in a dilution of approximately 1.17% of the total number of outstanding shares. The initial estimate at full allocation was a dilution of 1.24%. The cost of the long-term incentive program is estimated at approximately MSEK 2.6, excluding social security contributions of approximately MSEK 1.3. Initial estimates at full allocation amounted to MSEK 2.4, excluding social security contributions of approximately MSEK 0.8.

The long-term incentive program is accounted for in accordance with IFRS 2 Share-Based Payments. This means that the cost of the program is recognized over the vesting period of approximately three years.

For more information about the 2025 performance share program, see the AGM minutes available at www.kjellgroup.com.

Kjell Group already has three ongoing performance share programs (2024, 2023, 2022) previously adopted. The total IFRS 2 cost for Kjell Group's performance share programs is reported under Equity.

Note 11 Significant events after the reporting date

- Impairment of goodwill and inventory affects the result for the third quarter of 2025.
- Kjell Group prepares for the future by adjusting its workforce to align with the new central warehouse
- Kjell & Company moves into IKEA opening stores in Kalmar and Kungens Kurva.

Reconciliation of alternative performance measures

Certain information in this report used by management and analysts to assess the company's performance has not been prepared in accordance with International Financial Reporting Standards (IFRS). Management is of the opinion that this information makes it easier for investors to analyse the Group's performance for the reasons stated below. These measures are not a substitute for or better than financial measures reported in accordance with IFRS and should be presented

together with such measures. Note that the Group's definitions of these measures may differ from other companies' definitions of the same name. Investors are encouraged not to place undue reliance on these alternative performance measures.

Adjusted EBITA

Management has presented the performance measure of adjusted EBITA because it monitors this performance measure at Group level and believes that this measure is relevant for understanding the Group's financial performance.

Adjusted EBITA is calculated by adjusting net profit for the period so that it excludes the impact of tax, net financial items, amortisation and impairment of intangible assets arising in connection with business combinations and items affecting comparability.

Items affecting comparability

Income and expense items that are reported separately due to their nature and size. Items affecting comparability are used by management to explain movements in historical earnings. For the quarter, items affecting comparability totalled MSEK 81.1 (1.4) regarding inventory writedowns, restructuring costs, and impairment of the legacy e-commerce platform.

Definitions – Alternative performance measures

Earnings measures	Definition	Reason why the earnings measure is used
Gross margin, %	Gross profit divided by net sales.	The gross margin shows the company's profitability after the costs of goods for resale, which facilitates a comparison of the average gross margin on goods sold over time.
Gross profit	Net sales less costs of goods for resale.	The company's gross profit shows the amount that remains for financing other expenses after goods for resale have been sold.
Core working capital	Inventories plus accounts receivable less accounts payable.	This performance measure shows the business's tied-up capital for sales of goods.
EBIT-margin, %	EBIT divided by net sales.	The performance measure shows the company's profitability generated by the operating activities after amortisation, depreciation and impairment.
EBITA	Operating profit before amortisation and impairment of intangible assets arising in connection with business combinations.	EBITA provides an overview of the profit generated in the operations before amortisation and impairment of intangible assets arising in connection with business combinations, which provides a more comparable performance measure over time.
EBITDA	Profit before tax, financial items, amortisation, depreciation and impairment.	EBITDA provides an overview of the profit generated in the operations before amortisation, depreciation and impairment, which provides a more comparable performance measure over time.
Financial net debt	Net debt excluding current and non-current lease liabilities.	Used to monitor the debt trend and evaluate the level of refinancing requirements.
Financial net debt/Adjusted EBITDAaL (multiple)	Financial net debt in relation to 12 months' adjusted EBITDAaL.	This performance measure illustrates the company's capacity to repay its debts. Management uses the performance measure to monitor the level of financial gearing.
Investments	Acquisitions of tangible and intangible assets	This performance measure describes the company's continuous investments in the operations.
Adjusted EBITA	EBITA excluding items affecting comparability.	Management has presented the performance measure of adjusted EBITA because it monitors this performance measure and believes that this measure is relevant for understanding the Group's financial results.
		The measure shows the financial results of the operations without the effect of material cost or income items that impact comparability over time, as described under the heading "Items affecting comparability."
Adjusted EBITA-margin, %	EBITA excluding items affecting comparability divided by net sales.	This performance measure shows the company's profitability from the operating activities excluding items affecting comparability and amortisation and impairment of intangible assets arising in connection with business combinations, which enables a comparison with the underlying operating profitability.
Adjusted EBITDA	EBITDA excluding items affecting comparability.	This measure indicates the company's underlying profit generated by the operating activities before amortisation, depreciation and impairment excluding items affecting comparability, which provides a more comparable performance measure over time.
Adjusted EBITDAaL	Adjusted EBITDA less amortisation, depreciation and interest expenses related to leases under IFRS 16 plus adjusted EBITDAaL for the periods in which acquired companies were not included in the Group's consolidated financial statements for the relevant period.	Adjusted EBITDAaL is used as the denominator in financial net debt/adjusted EBITDAaL for monitoring financial gearing.
Comparable growth, %	The change in comparable sales between the current and comparative period in which comparable sales are sales in comparable units and channels, excluding currency translation effects. Comparable units and channels are sales units and channels that were operational for the current and the comparative period.	The measure facilitates a comparison of net sales over time by excluding revenue from sales units and channels that were not operational for corresponding periods, adjusted for currency effects. The measure makes it possible to evaluate sales growth in existing channels.

Earnings measures	Definition	Reason why the earnings measure is used
Items affecting comparability	Income and cost items that are presented separately due to their nature and amounts. All items that are included are larger and material in certain periods and smaller or non-existent in other periods.	Items affecting comparability are used by management to explain fluctuations in historical profitability. Presenting and specifying items affecting comparability separately makes it possible for readers of the financial statements to understand and evaluate the adjustments made by management when presenting adjusted EBITA. Taking into account items affecting comparability increases comparability and thus understanding of the Group's financial performance.
Net sales growth, %	Net sales for the current period less net sales for the relevant comparative period, in relation to net sales for the relevant comparative period, expressed as a percentage.	The measure makes it possible to analyse the Group's total net sales growth and compare it in relation to the market as a whole and competitors.
Net debt	The total of current and non-current interest-bearing liabilities and current and non-current lease liabilities less cash and cash equivalents.	Net debt illustrates the company's total indebtedness.
Working capital	Total current assets excluding cash and cash equivalents, less total current liabilities excluding interest-bearing and lease liabilities.	The measure is used to analyse the company's short-term tied-up capital.
Operating profit (EBIT)	Operating profit (EBIT) refers to the company's net sales and other operating income less goods for resale, personnel costs, other external expenses, other operating expenses, and depreciation, amortisation and impairment of tangible and intangible assets.	The measure indicates the company's underlying profit generated by the operating activities.
Equity/assets ratio, %	Total equity divided by total assets.	This performance measure describes the company's long-term payment capacity.
