

Konsolidator reports strong Q1 2026 with record new sales of DKK 1.4m

Company Announcement no. 2/2026 (April 07, 2026 at 13:05:00 CEST)

Konsolidator delivered the strongest first-quarter performance in the company's history in Q1 2026. During the quarter, Konsolidator signed 18 new customers, resulting in a Contracted Annual Recurring Revenue (CARR) from new sales of DKK 1.4m. The result exceeded the previous quarterly peak in Q1 2021 and was driven by solid performance across both Konsolidator in Denmark and Iberia, as well as from partners.

Claus Grove FINDERUP, CEO at Konsolidator, comments: *"2026 has started very well, with a record-breaking first quarter, where we reached DKK 1.4m in new sales, demonstrating solid performance across all our key markets. Historically, Q1 is a tough quarter for sales, as many finance departments are busy with year-end. This result provides a strong foundation for the remainder of the year."*

No changes have been made to Konsolidator's previously communicated plans, expectations, or financial outlook.
