

W5 Solutions receives order for Live-Fire Training products from an existing European customer

The fast-growing Nordic defence group W5 Solutions has received an order for Live-Fire Training products from an existing European customer. The order value amounts to SEK 32 million with a delivery plan during Q2 and Q3 2024, as well as an option worth SEK 48 million expected to be realized during 2025 and 2026.

The delivery of the system enhances the training process and results in increased capability while saving time and being cost-efficient.

"We are pleased to further strengthen our partnership with this customer by delivering our live-fire training system and are confident that this will lead to increased capability among soldiers and sailors. We are grateful for the continued trust in us as a supplier and look forward to continue supporting our customer's training needs," says Evelina Hedskog, CEO & President of W5 Solutions.

Within this product area, W5 Solutions offers both target systems used for shooting exercises on shooting ranges and advanced systems with hundreds of targets that can be programmed for different scenarios. W5 Solutions also provides software to evaluate the exercises and share the results with the training participants.
