

CAVENDISH HYDROGEN ASA: CONTRACT AWARD FOR HYDROGEN FUELING STATION IN NORTH-WEST EUROPE

Oslo, Norway, April 27, 2026 – Cavendish Hydrogen ASA (“Cavendish”, Oslo Børs ticker: CAVEN) has been awarded a new contract by its long-standing partner Mesure Process for the delivery of a hydrogen fueling station. Mesure Process will act as EPC and maintenance contractor, while Cavendish will supply the hydrogen fueling station as part of the delivery to the customer, which is a leading Energy company. The site will serve both industrial users and bus fleets, which will be supplied with green hydrogen.

The contract value is approximately EUR 1.4 million and will be included in Cavendish’s Q2 2026 order backlog, with delivery scheduled for 2027.

This project forms part of a major initiative funded under the European Commission’s Horizon Europe Programme, aimed at decarbonizing mobility and selected industrial applications. Its cross-border energy integration, together with participation in regional hydrogen transport initiatives, positions the project as a potential logistics and demonstration hub within the broader Northwest European hydrogen network.

CEO Robert Borin commented: *“We are pleased to strengthen our cooperation with Mesure Process and Synco Energies, and to contribute to the forward leaning hydrogen ambitions in Europe. This award adds high quality backlog, underlines the versatility of our fueling technology and is a testament to the proven reliability of the Cavendish Hydrogen’s technology.”*
