

Image Systems' Business Unit Motion Analysis Receives Order Worth SEK 2.6 Million

Image Systems AB's business unit Motion Analysis has received an order valued at approximately SEK 2.6 million from an existing customer in the French defense sector. The order comprises additional perpetual licenses for the company's motion analysis software and supports the customer's continued expansion of its use of Image Systems' solutions.

"This order reflects the confidence our customer has in our technology, expertise and ability to support demanding applications over the long term. We are proud of the strong partnership we have developed through many years of collaboration and look forward to continuing to support their future needs,"

says Andreas Ovemyr, CEO Motion Analysis

About Image Systems

Image Systems is a Swedish high-tech company and a leading provider of products and services in high-resolution image processing. By continuously challenging market concepts and instead offering new and more efficient solutions, we help our customers achieve greater success in their businesses. The company serves a wide range of industries globally and operates through two business areas: RemaSawco and Motion Analysis.

Image Systems has approximately 75 employees in several countries. In 2025, the group had a turnover of SEK 169 million.

The company's share is listed on Nasdaq Stockholm's Small Cap list and is traded under the ticker IS.
