

## Contract for MobiMed delivery to Region Sörmland successfully signed

**On September 22, 2023, Ortivus was awarded a contract for the delivery of MobiMed Monitor and MobiMed Life to support the ambulance operations of Region Sörmland. The contract has now been officially signed by both parties. The order value is estimated at 10.0 MSEK, and the contract duration is 2 years, with a possible extension of another 1+1 years.**

We are pleased to announce that a contract has been signed between Ortivus and Region Sörmland covering the delivery of MobiMed to the region's entire ambulance fleet.

The contract includes MobiMed Monitor hardware and software, as well as telemedicine solutions and integrations. Additionally, the contract encompasses MobiMed Life and external defibrillators from Bexen Cardio, for which Ortivus holds exclusive distribution rights in the Nordic countries, the UK, and Ireland. Region Sörmland has previously used MobiMed in its multi-patient transport ambulances.

*"We are very pleased that the contract has now been signed between Ortivus and Region Sörmland. We look forward to the joint implementation work and, we are very proud to have once again gained the region's trust to deliver the future of prehospital monitoring and telemedicine solutions."* – Says Stefan Ekblom, Nordic Sales Manager at Ortivus

Following the award on September 22, 2023, a competing supplier contested the decision. However, on December 15, 2023, the Administrative Court dismissed the appeal against Region Sörmland and the contract has now been successfully signed.

## About Ortivus

---

Ortivus develops and commercialises MobiMed, e-health and medical technology solutions for a safer and more efficient healthcare. The company was founded in 1985 and is today a leading provider of mobile digital solutions for prehospital care, worldwide. Ortivus' innovations are based on in-depth expertise in cardiology as well as decades of development together with users and customers. The company's headquarters are located in Danderyd, Stockholm. The company has, since 1998, a wholly owned subsidiary based in the United Kingdom and since 2022, a wholly owned subsidiary based in Denmark.

MobiMed is a modular platform that connects and enable real-time information sharing throughout the prehospital care chain. It is currently used by over 12,000 paramedics in over 2,700 emergency vehicles. The platform, MobiMed, consists of several product modules that are completely integrated but can also be used stand-alone. MobiMed comprises four main solutions: MobiMed Monitor, that measures, monitors and shares patients' vital parameters and ECG in real-time, MobiMed ePR, - an electronic patient record for decision support, collection of patient data and clinical documentation, MobiMed enRoute, - a tool for navigation and case management, and MobiMed Life - a range of stand-alone defibrillators.

MobiMed saves vital seconds and enable healthcare professionals make the right decisions in critical situations. MobiMed also contributes to improved quality of care and saved resources.

Ortivus Class A and Class B shares are listed on the NASDAQ Stockholm Small Cap list.
