

Diadrom to exhibit at Eurosatory 2026 in the Team Sweden joint stand

Diadrom Systems AB, a subsidiary of Diadrom Holding AB (NGM: DIAH), will exhibit in the Swedish joint stand at Eurosatory 2026, Europe's largest defence and security exhibition, held in Paris from 15 to 19 June 2026. The stand is organised by the Swedish Security and Defence Industry Association (SOFF) under the "Team Sweden" banner and brings together up to twenty Swedish companies across 250 square metres at the Paris Nord Villepinte Exhibition Center. Diadrom can be found in Hall 6, stand J177.

For Diadrom, the participation marks a clear step in the company's expansion into the defence and total defence sector. With 25 years of experience in diagnostics, embedded software and lifecycle governance for mission-critical systems, Diadrom brings competence built up within the West Swedish automotive industry, with customers such as Volvo Cars, AB Volvo and Saab Bofors Dynamics, into a new application domain.

Modern defence and security systems are fundamentally software-defined and depend on a large number of subsystems working together. Diadrom's premise is simple: nothing works until everything works. The hidden cost arises in the integration between systems, not in the individual components. This is where Diadrom has built its specialist role over a quarter of a century.

At the stand, Diadrom will show how its products and services, including DiagStudio, Diadrom Encrypt and DCS, can form the embedded software layer in a sovereign Swedish solution for defence and security. This is the thinking behind #DiadromInside: a trusted component that makes the whole possible.

"Eurosatory is where European defence and security meet, and we are proud to stand alongside the rest of Team Sweden. The competencies that the West Swedish automotive industry has built within software and systems integration are directly transferable to the defence sector. That is what we want to demonstrate here," says Viktor Eliasson, CEO of Diadrom.

Diadrom sees the participation as a platform to deepen existing relationships and build new contacts with Primes, government agencies, systems integrators and industry partners across Europe.

Visit Diadrom in the Swedish joint stand at Eurosatory 2026, Hall 6, stand J177, Paris Nord Villepinte, 15 to 18 June 2026, 09:00 to 17:00.
