SVEA MINING: INTERVIEW WITH KEN OSBORNE (CEO) AND JYRI MERILÄINEN (DIRECTOR, GEOLOGIST)

We interviewed Ken Osborne, CEO of Svea Mining, and Jyri Meriläinen, Director and Geologist, in connection with the company's listing on the Spotlight Stock Market. Svea Mining explores for gold and copper in Västerbotten. Within the Kalvträsk project, we discuss the historical boulder samples of up to 20 g/t gold and the results from the first field programme. At Stöverfors, located in the Skellefte mining district, we cover the high-grade gold the company has confirmed in its own sampling. We also discuss why Sweden is attractive for exploration and what the gold price means for Svea Mining. Finally, we go through the financing of the next steps, including drilling, and the catalysts to watch over the next twelve months.
