

Intellego announces a record-high order book of approximately MSEK 300 for 2025

Intellego Technologies AB (publ) ("Intellego" or the "Company") is pleased to announce a record-high order book of approximately SEK 300 million, so far, for expected deliveries in 2025.

As previously communicated in the Q3 report, Intellego anticipates significant growth in the coming years as a result of the company's strategic expansion efforts. This growth is now reconfirmed by the order book for 2025.

About Us

Intellego Technologies develops and manufactures color indicators that show the effect of irradiation with, among other things, invisible ultraviolet light, UV light. Color indicators are used globally in, for example, the disinfection industry, the sunscreen industry, and the manufacturing industry. Intellego's indicators have been developed from the company's patented photochromic ink, which can be adapted to different wavelengths of light and various application areas across a range of different industries. Intellego Technologies was founded in 2011, is headquartered in Stockholm, and is listed on the Nasdaq First North Growth Market.

The company's Certified Adviser on the Nasdaq First North Growth Market Stockholm is Mangold Fondkommission AB.
