

Swedish Jezierski & Fors joins XPartners

XPartners continues to strengthen its platform within engineering and design and welcomes Jezierski & Fors to the group. The company is a fast-growing technical consultancy with specialist expertise in project management, structural engineering, scanning and 3D modelling, with a clear focus on infrastructure.

Jezierski & Fors was founded in 2015 and has more than 25 employees, with its head office in Malmö and an office in Solna. The company provides services including construction and project management, contract inspection, structural engineering, scanning and 3D modelling, and construction health and safety coordination. Its clients are primarily active in infrastructure, residential and commercial real estate. Annual revenue amounts to just over SEK 35 million.

“Jezierski & Fors is a strong specialist company with a relevant service offering in several areas where we continue to see solid demand. Their expertise complements our group well and further strengthens our position in infrastructure, residential and commercial real estate alike. We also see strong potential for collaboration with other companies within XPartners,” says **Magnus Trollius**, Managing Director of XPartners Sweden.

“We have built Jezierski & Fors with a focus on quality, long-term client relationships and a clear specialist profile. Becoming part of XPartners feels like a natural next step for us. We gain a platform for continued development, new opportunities for collaboration and access to a broader context, while continuing to run the business with the same commitment and close client relationships,” says **Morgan Larsson**, CEO of Jezierski & Fors.
