

## K2A chooses the climate and sustainability platform Prodikt to enable the market's most ambitious climate target

*"K2A has the real estate market's most aggressive climate goals; the entire value chain must be climate positive no later than 2027. This includes not only K2A, but also the climate impact of all suppliers. With Prodikt, we are able to assert our requirements upon suppliers, enabling us to make substantial contributions towards achieving our goal. It is also valuable to have the opportunity to avoid climate impact from new building products completely by using recycled alternatives,"* says Karina Antin, Chief Sustainability Officer at K2A Fastigheter.

*"Regardless of how you work with calculation of the climate footprint and improvements today, Prodikt offers a flexible and powerful sustainability platform that connects material suppliers with customers and projects to contribute to more climate-smart, circular, and sustainable properties. We look forward to continuing the collaboration, and it is always extra fun to work together with an actor as progressive in their sustainability work as K2A",* says Dan Axner, Head of Project Sales, Prodikt (owned by Carbonzero AB - a subsidiary of BIMobject).

### **About BIMobject**

---

BIMobject connects and digitizes the construction industry, so we can build smarter, faster and greener.

bimobject.com, our global marketplace for building products, helps millions of architects and engineers every year to find the right products and information for their projects. Our tools for sustainable construction (prodikt.com) help large property owners understand and minimize their impact on the environment. Together we build a better world.

BIMobject's shares are traded on Nasdaq First North under the ticker: BIM.  
Certified Advisor: FNCA Sweden AB, [info@fnca.se](mailto:info@fnca.se)
