# Record Q3 in Matas but KICKS challenged as consumers traded down

Revenue performance in Q3 2025/26 was mixed for Matas Group. Matas delivered yet another record quarter during the most important trading period, growing 4.8% excluding subsidiaries, supported by Black Friday and Christmas, while KICKS reported a decline of 3.8% as consumer behavior shifted.

Across the Nordics, consumers increasingly traded down from High-end Beauty towards Mass Beauty. While this trend also impacted Matas, it was most pronounced in KICKS due to its higher exposure to High-end Beauty, resulting in a decline in the quarter.

Despite the pressured topline, cost discipline was maintained, particularly through staff cost management in stores and higher efficiency in logistics operations, while investments in pricing and marketing initiatives were increased to protect competitiveness.

The strategy and focus to Win the Nordics remain unchanged. In response to the market development, the strategy is being accelerated to broaden KICKS' online and in store offer, strength-

ening value for money and reinforcing category leadership.

The EBITDA margin before special items was 16.7% in Q3 (17.2% adjusted for currency effects).

The KICKS integration continues; following the full delivery of the initial synergy targets, the next phase remains on track to further drive acquisition value.

The share buy-back programme announced in June 2025 continued during the quarter and reflects confidence in the Group's long-term outlook. As per end of Q3, approximately DKK 109 million of 78% of the programme had been completed.

*"Matas delivered another record quarter in our most important trading period, while KICKS was more challenged as consumers traded down from High-end Beauty, particularly in Sweden. We are not satisfied with the quarter and are accelerating our plans for KICKS to strengthen value for money and relevance for consumers. At the same time, in-house brands strengthened performance across the Group, and the automated logistics centers delivered higher efficiency." Per Johannesen Madsen, Interim Group CEO and Group CFO*

As announced in December 2025, the Board of Directors has appointed Mette Uglebjerg as new Group CEO, effective 1 May 2026. Until then, Per Johannesen Madsen continues as Interim Group CEO, providing stability and momentum through the transition.

## Financial guidance

Due to the more challenging market conditions Matas Group's revenue guidance was adjusted downwards on 9 January 2026. Revenue is expected to grow in the range of 3% to 4%, currency neutral\*.

The EBITDA margin before special items was also revised and is expected to be between 14.0% and 14.5%. This adjustment reflects lower revenue

expectations and continued margin pressure from the strengthening of the SEK.

Investments, excluding M&A, are still expected to be around 3% to 4% of revenue, corresponding to DKK ~330 million, including approximately DKK 30 million for Matas' Logistics Center.

Matas Group maintains the guidance for the financial year 2025/26 as announced on 9 January 2026.

**3.1%**  
Revenue growth in Q3  
(1.8% currency neutral)

**16.7%**

impact on cost of goods)

\* Corresponding to ~4.1% to 5.1% growth assuming exchange rates as per 8 January 2026 for Q4. Currency neutral revenue guidance for 2025/26 is based on average rates for 2024/25: SEK/DKK of 0.652 and NOK/DKK of 0.638.

The gross margin in Matas and KICKS was impacted negatively by price initiatives and product mix as consumers traded down. Further, the gross margin continued to be

- Other external costs amounted to DKK 347 million in Q3 2025/26, up from DKK 325 million in Q3 2024/25 (DKK 331 million currency neutral) driven by higher marketing cost to support customer traffic, and variable costs related to online growth.
- Q3 2025/26 staff costs amounted to DKK 439 million, down from DKK 451 million in Q3 2024/25 (DKK 456 million currency neutral) driven by relative staff cost savings from the automated logistics centers, as well as strong staff cost management for the stores.

# Management’s review

On 28 May 2024, Matas Group announced its new strategy, Win the Nordics, in connection with the Annual Report for 2023/24 and the Capital Markets Day.

Win the Nordics is a growth strategy with six customer centric strategic priorities for the mid-term to outgrow the market while improving margins and building the long-term platform. The strategy continued to progress as planned.

The initial synergies of DKK >100 million full run-rate by 2025/26 have been delivered. Further synergies of DKK >50 million run-rate by end of 2026/27 are on track. The implementation of a new Nordic organisation was completed in April 2024. Matas Group has two automated logistic centers and is re-investing in growth and capabilities, as well as in IT to support future growth and margins.

\* In April 2024, Matas completed an option agreement with the former owners of Firtal Group ApS and received an option premium payment of DKK 10 million which is recognised in the equity. The option allows the former owners to acquire 20% of the shares in Firtal Group ApS for a predetermined amount. The option can be exercised from 1 May 2024 and expires 31 March 2029. After the option has been exercised, Matas has a right to acquire the shares at a consideration calculated based on a predetermined formula with a cap. There will not be any impact on the Matas Group profit and loss accounts from the option agreement nor the shareholder agreement.

## Note 1 – Accounting policies

The unaudited condensed consolidated interim financial statements have been prepared in accordance with IAS 34 Interim Financial Reporting as issued by the International Accounting Standards Board (IASB) and adopted by the EU and additional Danish disclosure requirements for interim financial reporting of listed companies.

The accounting policies applied are consistent with the accounting policies set out in the Annual Report 2024/25.

Due to rounding, numbers presented throughout this report may not add up precisely to the totals, and percentages may not precisely reflect the absolute figures. The interim financial report is presented in Danish kroner (DKK) and all amounts are in millions unless otherwise stated.

Matas Group presents financial measures in the interim financial report that are not defined according to IFRS Accounting Standards. Matas Group believes these non-GAAP measures provide valuable information to investors and Matas Management when evaluating performance. Since other companies may calculate these differently from Matas, they may not be comparable to the measures used by other companies. These financial measures should therefore not be considered to be a replacement for measures defined under IFRS Accounting Standards. For definitions of the performance measures used by Matas, see page 210 Definitions of key financials in the Annual Report 2024/25.

### Changes of accounting policies

Matas Group has adopted all new or amended IFRS Accounting Standards and interpretations (IFRS IC) as adopted by the EU and which are effective for the financial year beginning on 1 April 2025. The implementation of these new or amended standards and interpretations have had no material impact on the consolidated financial statements for the quarter.

The new standards that are not yet effective are not expected to have any material impact on Matas Group, except for IFRS 18 Presentation and Disclosure in Financial Statements, which was issued in April 2024 and will be effective from 2027, impacting presentation and disclosure of the financial statements. Matas Group is currently evaluating the potential impact of this standard.

## Note 2 – Accounting estimates and judgments

In preparing the condensed consolidated interim financial statements, Management makes various judgements, accounting estimates and assumptions that form the basis of the presentation, recognition and measurement of Matas Group's assets and liabilities.

Matas Group has evaluated the value of its non-current assets. Based on current market information and forecasts, no indications of impairment were identified, and the most recent impairment test conducted as of 31 March 2025 is still considered to include sufficient headroom. Given the uncertain macroeconomic environment, Matas Group will continue assessing the value of the assets. Matas Group has also considered the recoverability of accounts receivable and the inventory value and has not identified any impairment write-down.

## Note 3 – Seasonality

The Group's activities in the interim period were affected by Black Week and Christmas shopping, which is material to the Group's overall financial performance.

## Note 4 – Segment information

The Group's gross profit and assets are segmented in banners and on the basis of geographical regions in accordance with the Management reporting for the current year.

Matas Group comprises of three segments; Matas, KICKS and Other (Firtal, Grænn and Web Sundhed). Management monitors the profitability of the operating segments separately for the purpose of making decisions about resource allocation and performance management.

Segment results are measured at gross profit as presented in the table below. Group costs are currently not separated from the segments below gross profit, which is the reason why Management when looking at financial performance below gross profit is looking at the consolidated Group figures

Revenue from sales of products through stores is recognised when a store sells the product to the customer. Payment is usually received when the customer receives the product, or, if the customer pays by credit card, a few days later. Revenue from sales through web shops is recognised and payment is received when the product is available for the customer. The Group does not have any sale of services.

A small proportion of Matas Group's revenue is invoiced, e.g. wholesale sales, in which connection a receivable is recognised.

Income from the sale of gift vouchers is recognised as revenue upon redemption, alternatively upon expiry of the validity period. In estimating the redemption rate, Matas Group considers breakage which represents the portion of gift vouchers issued that will never be redeemed.

For the customer loyalty programme at Matas and KICKS, a performance obligation is recognised at the date of recognition of the sale triggering the allocation of loyalty points. The performance obligation is measured at the estimated fair value of the points allocated and amounted to DKK 86 million at 31 December 2025 (31 December 2024: DKK 76 million). The estimated fair value is inherently subject to some uncertainty with respect to actual future redemption and considering the flexibility of the customer loyalty programme. Revenue is recognised when the customer uses points, usually over an average period of three months.

Customers have the option of returning products, but the volume of returns at 31 December 2025 was insignificant as was the amount of guarantee commitments, similar to last year.

## Note 6 – Leases

Matas Group's lease assets are as follows:

(DKKm)	31 Dec. 2025	31 Dec. 2024	31 March 2025
Store leases	774	863	993
Administration and warehouse buildings, etc.	155	143	179
Cars and other leases	11	6	6
<b>Total lease assets</b>	<b>940</b>	<b>1,012</b>	<b>1,178</b>

Matas Group's lease liabilities are as follows:

(DKKm)	31 Dec. 2025	31 Dec. 2024	31 March 2025
Non-current liabilities	626	725	870
Current liabilities	404	351	404
<b>Total lease liabilities</b>	<b>1,030</b>	<b>1,076</b>	<b>1,274</b>

Most store leases in Denmark are evergreen contracts as defined in the Danish Business Lease Act and are consequently subject to terms of notice of 3-12 months. Commercial renting of shops, etc., in the other Nordic countries are not similar to the practice in Denmark, as extensions take place at fixed intervals and with fixed deadlines for termination/extension. This has been accounted for in recognising the KICKS leases.

Depreciation as set out below is recognised in the statement of comprehensive income:

(DKKm)	9M 2025/26	9M 2024/25
Store leases, etc.	256	240
Administration and warehouse buildings, etc.	24	28
Cars and other leases	4	2
<b>Total depreciation of lease assets</b>	<b>284</b>	<b>270</b>

Lease payments in the amount of DKK 324 million were made in 9M 2025/26 (9M 2024/25: DKK 288 million).

Interest in the amount of DKK 37 million was expensed in 9M 2025/26 (9M 2024/25: DKK 39 million).

Matas Group is the lessee of a limited number of premises. For some of these leases, the rent is fully or partially based on revenue.

Revenue-based rent is not comprised by IFRS 16 and is therefore not included in the above tables. Revenue-based rent is, as before, recognised under other external costs and amounted to DKK 19 million in 9M 2025/26 (9M 2024/25: DKK 16 million).

A total of DKK 6 million in 9M 2025/26 (9M 2024/25: DKK 3 million) was recognised in the statement of comprehensive income regarding short-term, leases and leases of low-value assets.
