CEO COMMENT

Stock markets continued their negative trend throughout the second quarter. The SIX Return Index fell by more than 16 per cent in the period, and it lost 28 per cent of its value in the first six months of the year. Most sectors have been revalued, mainly due to surging inflation driving up interest rates. Conditions therefore remain challenging and the future difficult to analyse, but we judge that it also creates business opportunities for ACQ. The search for a target company continues.

When ACQ was established 18 months ago, the base rate was negative and interest-bearing instruments generated negative returns. Due to the situation at the time, ACQ Bure's placement of cash and cash equivalents in a deposit account has not generated any interest. In the wake of rapidly rising inflation in recent months, however, Sweden's central bank, the Riksbank, has announced several base rate hikes at the same time as it has reduced the pace of bond purchases. This has resulted in the yield on Swedish government securities increasing rapidly in recent months.

ACQ Bure therefore applied for and has been granted an exemption by Nasdaq Stockholm from the rule that funds deposited by SPACs must be held in blocked bank accounts. The company has also received approval that these funds may be invested in government interest-bearing instruments. We believe that a reallocation of ACQ's deposited funds is in the interest of all shareholders. However, it is absolutely crucial that such a relocation does not affect ACQ's ability or flexibility to carry out potential business transactions.

DESCRIPTION OF ACQ

ACQ is an acquisition company established on the initiative of Bure Equity AB on October 26, 2020. ACQ was listed on the Nasdaq Stockholm on March 25, 2021 and raised SEK 3.5 billion in conjunction with the listing. The listing also resulted in ACQ gaining approximately 35,000 new shareholders.

ACQ aims to acquire a Nordic, sustainable, quality company valued at SEK 3–7 billions within 36 months, where there are good opportunities to create good returns for shareholders through value-creating initiatives and long-term commitment.

ACQ intends to acquire 100 per cent of the target company but may, at the same time, offer the previous owners and management the opportunity to reinvest in ACQ. In the first instance, available liquidity in the form of cash will be used to finance the acquisition. Depending on the financing needs at the time of the acquisition, the Board will also evaluate alternative sources of financing such as debt financing and/or raise additional equity.

Bure Equity is a so-called sponsor of ACQ and owns 20 per cent of its shares after the listing and intends to also be a long-term principal owner of the company that ACQ acquires. Bure also holds 4.2 million stock options in ACQ. As a sponsor, Bure provides services from its investment organization to assist ACQ in identifying, evaluating, and acquiring a target company. ACQ's Board of Directors acts as an investment committee and decides whether or not to enter into an acquisition agreement. If a decision is made to enter into an agreement on an acquisition, the Board will also convene an Extraordinary General Meeting of ACQ where a decision will be made on whether the acquisition is to be made.

The ACQ management team consists of Henrik Blomquist, Bure CEO, who has been appointed CEO on a consulting basis; Max Jonson, Bure Equity CFO, who has been appointed CFO on a consulting basis; and Johan Hähnel, CEO of Comir, who has been appointed IR manager on a consulting basis. The management team heads investment activities, ACQ's board decides to recommend an investment, and ACQ shareholders decide whether an investment is to be carried out on given terms at a general meeting. The ACQ board consists of Patrik Tigerschiöld, (also chairman of Bure), and Caroline af Ugglas, Katarina Bonde, Sarah McPhee (boardmember Bure), and Eola Änggård Runsten.

ADVANTAGES OF ACQ:

For investors

ACQ offers institutional and private investors, together with an experienced investment organization, the opportunity to invest in an unlisted company in a transparent, listed environment. The model thereby makes it possible for institutional investors on the stock exchange and the general public to invest in companies that they would not normally be able to invest in.

For target companies

Through ACQ, target companies gain a new long-term principal owner with extensive experience of value-creating company development in agreement with other owners. ACQ also gives companies an opportunity to raise capital, which can be used, for example, to accelerate growth or broaden product offerings. For the acquired company, ACQ offers access to a listed environment, and thus access to Swedish and international capital markets, which can promote the target company's continued growth and development, increase awareness of the company and strengthen its brand awareness.

For sellers

For sellers who are considering a traditional IPO, a sale to ACQ represents an opportunity to directly divest an entire holding, a degree of flexibility that is not normally found in a conventional IPO. A sale to ACQ also offers a simpler and more transparent process.

For sellers who are considering a private sale or a traditional listing process, this creates a sales process in which ACQ offers an opportunity to expose a planned sales process through a so-called dual track.

In the event of acquisitions, the target company's management will replace the current management in ACQ and, if necessary, be supplemented with new hires with stock market experience. Bure will, primarily through board representation, continue to support the company as an active owner by assisting management to implement the strategic plan that formed the basis for the acquisition. Activity is intended to be conducted in a similar way to Bure's other portfolio companies, in a collegial climate of co-operation with other board members, owners, and the CEO.

INTERIM REPORT

JANUARY – JUNE 2022

Due to ACQ being an acquisition company, the company does not generate any revenue. The company's assets mainly consist of cash and cash equivalents deposited in an account at SEB and which will be used to finance future acquisitions. In addition, cash and cash equivalents have been allocated to finance the operation of the company and costs that arise in conjunction with the evaluation of acquisition opportunities. This means that the company will generate a negative result until an acquisition is completed.

RESULTS FOR THE PERIOD 1 JANUARY – 30 JUNE 2022

Operating profit was SEK -4.9M (-2.6).
Net financial items were SEK 0.0M (0.0).
Profit after tax was SEK -4.9M (-2.6).

RESULTS FOR THE PERIOD 1 APRIL – 30 JUNE 2022

Operating profit was SEK -2.4M (-2.0).
Net financial items were SEK 0.0M (0.0).
Profit after tax was SEK -2.4M (-2.0).

FINANCIAL POSITION

Equity at the end of the year amounted to SEK 3,434.9M (3,445.1) and the equity to asset ratio was 100 per cent (100). At the end of the year, the company had a reported net receivable of SEK 3,435.6M (3,455.1), which consisted of interest-bearing assets of SEK 3,435.6M (3,455.1) and interest-bearing liabilities of SEK 0.0M (0.0). At the end of the year, the company's equity per share amounted to SEK 98.1 (98.4).

INVESTMENTS IN SWEDISH TREASURY BILLS AND GOVERNMENT BONDS

In the prospectus that ACQ Bure published for its listing and public offering, ACQ Bure stated that at least 90 per cent of the proceeds of the share issue would be held in a blocked SEB account. According to the instruction on blocked accounts that ACQ Bure provided to SEB, ACQ Bure retains the right to access blocked funds only when certain conditions are met, such as that a share transfer agreement has been entered into regarding acquisitions that are intended to be carried out where the purchase price must amount to at least 80 per cent of the deposited amount, and that shareholders have approved such an acquisition at a general meeting.

The conditions for the SEB deposit account mean that ACQ Bure did not receive any interest on deposited funds. In the wake of rapidly rising inflation in recent months, Sweden's Riksbank has hiked the base rate on several occasions at the same time as it has reduced the pace of bond purchases. This has resulted in the yield on Swedish government securities increasing rapidly in recent months.

ACQ Bure has been granted an exemption by Nasdaq Stockholm from the rule for SPACs, (rule 2.18.2 in the Nordic Main Market Rulebook for Issuers of Shares), that deposited funds must be held in a blocked bank account. Furthermore, ACQ Bure has received approval that these funds may be invested in Swedish government bills and government bonds.

In light of the above, the board of ACQ Bure believes that a reallocation of deposited funds is in the interests of shareholders. For some time, the company has therefore considered options of investing deposited funds in treasury bills and short-term government bonds to achieve more favourable returns, which would benefit all shareholders.

ACQ Bure believes that an investment in Swedish treasury bills and government bonds offers lower risk than investing in a bank account. SEB's credit rating according to S&P Global is currently A and A3 according to Moody's. The Swedish government currently has a credit rating of AAA according to S&P Global and Aa3 according to Moody's. In summary, an investment in government bonds is associated with reduced counterparty risk and increased security for the company's shareholders. The high degree of liquidity offered by treasury bills and government bonds avoids the creation of obstacles or limitations for the company to liquidate its position in the event of an acquisition.

OWNERSHIP STATISTICS AND SHARE CAPITAL

As of June 30, 2022, ACQ's largest owners were Bure Equity with 20.0 per cent, AMF Pension & Fonder with 20.0 per cent and the Fourth AP Fund with 10.0 percent. The number of shareholders amounted to 14,858 on June 30, 2021 according to Holdings.se.

Therefore, the company has a number of basic principles for risk management that are described in more detail in the company's investment policy and risk policy. Furthermore, a policy for related party transactions is in place that specifically addresses the relationship with Bure.
