COMMENTS FROM THE CEO

The first quarter of 2025 has been both dynamic and transformative for Toleranzia. We made important progress in the development of our lead drug candidate, TOL2, while also taking significant strategic steps toward securing the company's long-term future.

In March, our clinical trial application for TOL2 received conditional approvals from the regulatory authorities in Sweden and Germany, which marks an important milestone in advancing our mission to provide new treatments for patients with myasthenia gravis. However, the application was rejected in Denmark. As immediate measures, we decided to increase the number of clinical centers participating in

Germany and to request a scientific advisory meeting with the Danish Medicines Agency to address their comments and prepare for a possible resubmission.

In parallel with our clinical developments, Toleranzia entered a new strategic phase. In collaboration with our main shareholder, Flerie AB, we announced a proposed merger that would result in the delisting of Toleranzia from Nasdaq First North Growth Market. The Board of Directors has carefully evaluated the proposal and unanimously recommends that our shareholders vote in favor of the merger. We believe this step will strengthen our ability to fund and develop our pipeline over the long term. To formalize this process, we have called for an Extraordinary General Meeting on May 7, 2025, where shareholders will vote on the proposed transaction.

To support our operations during this transitional period, Toleranzia entered into a conditional loan agreement with Flerie AB, which includes a credit facility of SEK 20 million. This financing is contingent on the approval of the merger at the upcoming Extraordinary General Meeting and will provide essential support for our activities in the near term.

Operationally, intensive work is now underway in two main areas. First, we are finalizing the formulation of the previously produced GMP batch of drug substance into a lyophilized drug product. This work, which is ongoing in collaboration with our contract manufacturer, will provide the data required for regulatory authorities to grant final non-conditional approval to start the clinical trial. Second, we are putting a lot of focus on planning to ensure smooth logistics for the handling, transportation and analysis of patient samples from clinics participating in the trial.

We remain firmly committed to our vision of delivering breakthrough treatments in autoimmune diseases, and we continue to work diligently to initiate the clinical trial of TOL2 and to explore its promising potential to change the treatment landscape for patients with myasthenia gravis.

I would like to extend my sincere thanks to our shareholders, employees, and partners for the continued trust and support during this pivotal time.

Charlotte Fribert Executive Director Gothenburg, May 6, 2025

ABOUT TOLERANZIA

General information about the business

Toleranzia AB (publ) (556877-2866) is a Swedish biotechnology company listed on Nasdaq First North. The Company develops drugs that harness the power of the immune system to treat orphan autoimmune diseases. The drugs, which target the cause of the disease, can alleviate or cure the disease and not, like current treatments, just reduce the symptoms. They have the potential to be the first long-acting or curative treatments that act specifically on the underlying cause of the orphan autoimmune disease they are developed for. Toleranzia's main focus is the autoimmune nerve and muscle disease myasthenia gravis, for which the Company is developing the drug candidate TOL2. In addition, Toleranzia is working on the autoimmune blood vessel disease ANCA vasculitis, for which the Company is developing the drug candidate TOL3. Both diseases are so-called orphan diseases for which so-called orphan drugs can be developed and where there is a great medical need and a large market potential. For further information, please visit: www.toleranzia.com.

Company structure and shareholding

Toleranzia does not have any subsidiaries. Flerie Invest AB owns more than 50% of the shares, which means that Toleranzia is a subsidiary of Flerie Invest AB. The Company owns no shares.

Financial development and position

Period January - March

Other operating income amounted to SEK 191 thousand (230) during the quarter and consists of foreign exchange gains and project support part of development projects.

Operating expenses amounted to SEK 8 654 thousand (6 559) during the quarter, of which SEK 1 951 thousand (1 567) relates to personnel costs.

Costs, excluding one-time costs related to merger preparations, are in line with the Company's plan and expectations linked to the long-term strategy. During the period, costs of SEK 762 thousand relate to work towards a merger with Flerie AB.

Of the total cost, SEK 5 171 thousand (4 687) relates to the development of the Company's project portfolio in myasthenia gravis and ANCA vasculitis, where the costs incurred are continuously capitalized as work for own account

The operating result amounted to SEK -3 292 thousand (-1 641) during the quarter.

Cash flow and liquidity

Cash flow from operating activities amounted to SEK -3 190 thousand (-3 659) during the quarter.

As of March 31, the Company's cash and bank balances amounted to SEK 5 417 thousand (9 747).

The Company will shortly need additional capital to prepare and conduct the planned clinical phase I/IIa trial. Initially, the conditional loan facility that the Company has signed with the main owner Flerie AB may enable the Company to fully carry out the clinical preparation activities, while the implementation of the clinical trial requires additional capital. See also the Financing section.

Investments

Total investments in intangible assets amounted to SEK 5 171 thousand (4 687) during the quarter.

The investments relate to the development of the Company's portfolio of projects in myasthenia gravis and ANCA vasculitis and the costs are capitalized on an ongoing basis as work for own account.

Human resources

Toleranzia is a development company where committed employees with solid experience and cutting-edge expertise are a prerequisite for commercial success and for achieving the Company's vision. The Company had 10 full-time equivalent employees or contracted consultants as of March 31, 2025.

Financing

Toleranzia is a development company and has not yet generated any revenues. The company is in a very intensive phase with several ongoing pre-clinical activities prior to the start of the clinical phase I/IIa study of the drug candidate TOL2 for the treatment of myasthenia gravis. In order to complete the remaining preparations, a capital injection to the Company is required shortly. Furthermore, as a clinical trial should not be initiated before full funding is secured, additional - and not insignificant - capital injections will be needed.

The Board of Directors has evaluated several possible financing options and notes that, in the current market situation, it is challenging to raise capital in a listed environment. There is therefore a significant risk that the necessary capital cannot be obtained.

Toleranzia has received a merger offer from Flerie AB and the Board of Directors has, in light of the above, unanimously recommended the shareholders of Toleranzia to vote in favor of a merger with Flerie AB in accordance with the offer presented. Thomas Eldered, who is a member of the board of directors of Flerie and Toleranzia respectively, has not participated in the handling of matters relating to the merger or the preparation of the merger plan in Toleranzia's board of directors.

Toleranzia has also entered into a conditional loan agreement with Flerie AB including a credit facility of SEK 20 million. The agreement enters into force on May 7, 2025 and runs until September 15, 2025, provided that the merger plan is approved at Toleranzia's extraordinary general meeting on May 7, 2025.

In the event that the merger plan is approved at the Extraordinary General Meeting, the credit facility can ensure the Company's continued operational capacity and enable the Company to complete its clinic preparation activities until the completion of the merger while strengthening the Company's ability to secure long-term financing. Upon completion of the merger, Flerie will absorb Toleranzia, whereupon a combined company will be formed: New Flerie. After the completion of the merger, Toleranzia's operations will be transferred to a new subsidiary of Flerie Invest: New Toleranzia. The operation of the business of New Toleranzia will be the responsibility of Flerie Invest.

In the event that the merger plan is not approved at the Extraordinary General Meeting, there is significant uncertainty regarding the Company's future financing and continued ability to operate, which could have serious consequences for the Company's future development, financial results and financial position and ultimately adversely affect the Company's market value.

Shares

Toleranzia's shares are traded on Nasdaq First North Growth Market since October 15, 2020. The number of shares in Toleranzia amounted to 270 962 006 as of 31 March, 2025. The share is traded with the short name TOL and with ISIN code SE0007438577. As of 31 March, 2025, the share capital amounted to SEK 33 870 251. The Company has one class of shares, of which each share has a quota value of SEK 0.125 (SEK 0.125) and carries equal rights to participate in the Company's assets, earnings and votes.

Toleranzia's website contains a list of the largest owners, which is continuously updated.

Svensk Kapitalmarknadsgranskning AB, <u>ca@skmg.se</u>, is the Company's Certified Adviser.

General information

Toleranzia AB (publ), corporate identity number 556877-2866, is a company registered in Sweden with its registered office in Gothenburg and with the address Arvid Wallgrens backe 20, 413 46 Gothenburg, Sweden.

All amounts are in KSEK unless otherwise stated. Amounts in brackets refer to the comparative year.

Accounting principles

The accounts in the interim report have been prepared in accordance with the Swedish Annual Accounts Act and the Swedish Accounting Standards Board's general advice BFNAR 2012:1 Annual Report and Consolidated Accounts (K3).

The cash flow statement is prepared using the indirect method. The reported cash flow only includes transactions that have resulted in incoming or outgoing payments.

In addition to cash and cash equivalents, the Company classifies as cash and cash equivalents available balances with banks and other credit institutions and short-term liquid investments that are listed on a marketplace and have a maturity of less than three months from the date of acquisition.

In all other respects, reference is made to the accounting policies set out in the 2024 Annual Report and applicable to the Company.
