

Netel signs new framework agreement with Järfälla municipality

Netel's subsidiary JR Markteknik has signed a new framework agreement with Järfälla municipality. The agreement covers land remediation and restoration of areas, including former boat storage sites. The contract runs for two years, with an option for two years extension.

Järfälla municipality is located in the northern part of Stockholm County and has significant land areas along Lake Mälaren and several other lakes. The municipality has undertaken several initiatives to remediate shoreline areas by removing pollutants and thereby improving water quality.

"We are proud and grateful for Järfälla municipality's trust," says Jeanette Reuterskiöld, CEO and President of Netel. "This is yet another new customer and a new geographic area for us. We have extensive experience in carrying out construction work in sensitive environments and look forward to contributing to the improvement of Järfälla's water environments."

About us

With 25 years of experience, Netel is a leader in the development and maintenance of critical infrastructure within Infraservices, Power and Telecom in Northern Europe.
