

Railcare brings broad railway expertise to InnoTrans 2026

This september, Railcare will participate at InnoTrans in Berlin, showcasing how more than 30 years of railway experience and expertise can contribute to more efficient and sustainable railway operations.

”Operating across machine development, technology, contracting and transport gives us an understanding of the railway industry from multiple perspectives. We look forward to meeting both existing and potential customers and discussing their challenges, needs and opportunities in greater depth”, says Jonny Granlund, Business Area Manager Contracting.

Railcare provides efficient maintenance, specialised machinery, lifetime extension, modernisation and technical installations such as ETCS and radio remote control. Working across multiple areas of the railway enables practical solutions that deliver long-term value for customers.

Come and meet the Railcare team to learn more about how our expertise and solutions can support your operations and contribute to the railway of tomorrow.

Innotrans 2026, 22-25 september in Berlin.
Welcome to Outdoor Display O/328.

About Railcare Group

The railway specialist Railcare offers innovative products and services for the railway; for example, railway maintenance with self-developed machines, a locomotive workshop, special transport and machine sales projects. Our market is mainly in Scandinavia and the United Kingdom. The railway industry is in a positive development with increasing traffic volumes, extensive investment programs, developing cost-effective freight and passenger transport, and rising environmental awareness. Railcare delivers both sustainable and efficient solutions that contribute to the railway, so it can be used for the maximum number of years to come. The shares of Railcare Group AB (publ) are listed on the Small Cap list of the Nasdaq Stockholm exchange. The Group has approximately 200 employees and annual sales of approximately SEK 670 million. The company's headquarters are in Skellefteå.
