

# STILLFRONT GROUP

Press Release  
17 November 2021 12:00:00 CET

## Stillfront's Capital Markets Day 2021

At Stillfront's Capital Markets Day in Stockholm today starting at 15:00 CET, CEO Jörgen Larsson and other members of Stillfront's Group Management will provide an update on the group's strategy execution, financial model and provide a more in-depth view on Stillfront's business.

"When we communicated our updated strategy in November 2019, we had a clear agenda on the path forward. We have since then significantly diversified our audience, genres, and our revenue streams. Across our studios, we have successfully implemented an ESG program, accelerated synergies and collaborations, increased the number of games with sustained profitability, expanded our market reach and strengthened our Stillops platform. Three times as big as we were two years ago, we keep executing on our strategy and stay committed to our financial targets and ambition to build the leading free-to-play powerhouse", says Jörgen Larsson, CEO.

The presentations will cover several topics including how Stillfront works with its studios after being acquired, a deep dive on the financial model, and further details on recent and upcoming game launches including titles such as DogLife, BitLife DE, Iron Order 1919, The General, Love and Passion, and SIEGE: Apocalypse.

Speakers at Stillfront's Capital Markets Day include Jörgen Larsson, CEO; Alexis Bonte, COO; Andreas Uddman, CFO; Marina Andersson, Head of M&A; Phillip Knust, CPO; as well as representatives from Stillfront's studios Goodgame Studios, Moonfrog Labs, Candywriter and Sandbox Interactive.

Further information regarding the event, including a complete agenda, is available on Stillfront's website on <https://www.stillfront.com/en/capital-markets-day-2021/>

The presentations will be held in English and the event will be streamed live at <https://www.stillfront.com/en/capital-markets-day-2021/>. The webcast is expected to end at 18:00 CET. No pre-registration for participation on webcast is required.
