About ReFuels

ReFuels is decarbonizing Europe's truck fleet by developing, owning, and operating green BioCNG refuelling station infrastructure. We are rolling out a network of reliable and convenient stations offering renewable biomethane fuels to heavy goods vehicles. By end-2028 the target is to have at least 25 stations across the UK, while the long-term ambition is to become Europe's leading integrated supplier of alternative fuels for commercial fleets. For further information please visit www.refuels.com.
