

Cecilia Jinert Johansson has been elected to the board of the tech company Freemelt

The tech company Freemelt announces today that Cecilia Jinert Johansson will be a new board member. Cecilia Jinert Johansson has a long and broad experience from the industrial sector and today runs her own consulting business with assignments within companies such as Mycronic, BillerudKorsnäs and Danish Dinex. She has previously been active in e.g. Lantmännen, Rautaruukki and Crawford Group in leading positions in Operations. She has solid experience of board work from both listed and unlisted tech companies and currently sits on the boards of Nexam Chemical, Dahrén Group, TC TECH Sweden and Odinwell as well as her own company Minang. Cecilia Jinert Johansson has been elected as a new board member at the Extraordinary General Meeting this day.

Cecilia has a master's degree in economics and began her career at ABB and Alfa Laval as an economist. For the past 25 years, however, she has devoted leading positions in Operations, ranging from factory manager to responsibility for global multisite organizations in various industries and companies. She has solid experience of building production and supply chain processes and implementing marketing strategies within growth companies through her board and consulting assignments in recent years.

– We look forward to welcoming Cecilia Jinert Johansson to Freemelt. Cecilia is an experienced leader and has important skills in production development that will be valuable for our continued growth journey. In addition, we are now entering an interesting stage to go from producing and selling research machines to industrial machines, where production on a larger scale is a prerequisite, says Carl Palmstierna, Chairman of the Board of Freemelt.

– Freemelt's technology and the solid knowledge within the organization made it impossible to say no to the assignment. I am really looking forward to contributing my knowledge and experience to the exciting industrialization journey we have ahead of us in the best way, says Cecilia Jinert Johansson.

Freemelt's Board consists of the following persons: Carl Palmstierna, Chairman of the Board, Staffan Zackrisson, Per Anell, Martin Wildheim and Erik Lindeblad.

About Us

Freemelt is a high-tech growth company whose ground-breaking solution creates new opportunities for rapid growth in 3D printing, also known as additive manufacturing. The Company's protected technology – which already are available – takes 3D printing to a new level and provides new opportunities for printing products in a cost-effective way and to a consistent and high quality that previously was impossible. By choosing an open source solution, the conditions are created for strong growth, and the Company will expand towards manufacturing markets, moving forward. For more information, see www.freemelt.com.
