Construction begins on new Unika LSS home in Vallentuna

On 21 October, construction will begin on Unika Berga, a new LSS residential home with six apartments in Vallentuna, north of Stockholm. The home will be part of Unika, Attendo's specialist provider of individually tailored support and services under LSS. Set in scenic natural surroundings, Unika Berga will offer modern accommodation with support and care tailored to individual needs.

The home is intended for people with intellectual disabilities and/or autism who belong to group 1 under the Swedish Act concerning Support and Service for Persons with Certain Functional Impairments (LSS). Unika Berga will be built as a single-storey building with six apartments, each with its own private patio. There will also be shared spaces for social interaction and community.

"We look forward to creating six new homes in Vallentuna where each person can live a safe and independent life based on their individual needs and circumstances. At Unika Berga, we want to provide an environment where each person's needs, wishes and participation are at the heart of everything we do," says Marie Granberg, Regional Manager for the North Region at Unika.

About Unika Attendo's combined offering within LSS (the Swedish Act Concerning Support and Service for Persons with Certain Functional Impairments) operates under the Unika brand. Unika comprises around 180 services within disability care across Sweden. Its mission is to create a safe and supportive environment that enables a meaningful and independent life. Unika provides a wide range of LSS services, including group homes, service apartments, day activities, residential care for children, and short-term stays. A common denominator across all Unika services is a strong focus on each individual's abilities, combined with a commitment to quality and tailored solutions. Unika also offers specialised services in areas such as co-occurring conditions, Prader-Willi syndrome, and sign language environments.
