

QleanAir renews contract for six cleanrooms in the USA

QleanAir Holding AB (publ), the premium provider of solutions for clean indoor air, announces the renewal of a contract for six cleanrooms with the same healthcare organization in the USA.

QleanAir has renewed the contract for six USP <797> and <800> compliant cleanrooms for a leading New York based healthcare system. QleanAir designed and installed the first of six cleanrooms over three years ago on a lease contract with a full-service and maintenance agreement. The client recently chose to extend their contract with QleanAir after a positive experience with both the environment and service partnership with QleanAir. The cleanrooms, used for compounding of drugs, are critical to the ongoing care and safety of the hospital system's patients and staff. The client chose to extend the lease agreements for an additional 3-year term, valuing more than \$700,000 USD.

"I can't think of a better product endorsement than the renewal for six of our cleanroom leases with a leading healthcare provider in the state of New York. The combination of QleanAir's high quality system and an ongoing compliance guarantee is allowing pharmacists to do what they do best – focus on treating patients" says Brad Ballantine, President of QleanAir's North American operation.
