Kalqyl initiates coverage of SaveLend Group through commissioned research

SaveLend Group AB ("SaveLend Group" or the "Company") has engaged Kalqyl to provide ongoing commissioned research coverage of the Company. The initial research report was published today, Monday, 24 August, before the market opened.

SaveLend Group is undergoing a period of transformation as the business evolves and the Company takes steps towards the next phase of its development. As part of this process, SaveLend Group sees a need to provide the market with greater insight into this transformation, the Company's strategic direction and the opportunities arising from it.

Kalqyl's commissioned research will complement SaveLend Group's own financial communications and provide an additional channel through which the market can gain a more in-depth understanding of the Company's operations, business model and development over time.

"We are in a period of significant change as we lay the foundation for the next phase of the Company's development. This also places greater demands on us to clearly explain what we are doing, why we are doing it and what it means for SaveLend Group going forward. We see commissioned research as an effective way to provide the market with additional perspectives and a deeper understanding of our development," says Peter Balod, CEO of SaveLend Group.

The initial research report includes Kalqyl's review of SaveLend Group's operations, market, development and future prospects. The research is prepared independently by Kalqyl.

The research is available in Swedish through Kalqyl and on SaveLend Group's website, savelendgroup.se.
