

## Clavister Receives 3 MSEK Order from European Law Enforcement Agency

**Örnsköldsvik, Sweden - 16 December 2024 - Clavister, a leader in European cybersecurity for mission-critical applications, announced today that it has received an order for its Clavister NetWall firewall products worth ca 3 MSEK from a European Law Enforcement Agency.**

The Clavister NetWall product family is a set of AI-powered Next-Generation Firewall products which are used by several public administration and energy and utilities customers as well as a broad range of SMB and enterprise customers. The products, which are used for perimeter firewall protection, encrypted communication and for OT (Operational Technology) security, are Clavister's most deployed products to date.

The new order concerns Clavister NetWall product licenses amounting to 3 MSEK for a European law enforcement agency, with a mutual ambition to scale the business further with additional products and solutions from Clavister's wider portfolio.

"We are proud to see that our technology is being increasingly trusted by organisations with highly mission-critical operations. Law enforcement in particular demands cyber protection with the highest level of security and robustness," comments John Vestberg, CEO of Clavister.

### About Clavister

---

Clavister is a specialised Swedish cybersecurity company, protecting customers with mission-critical applications for more than two decades. Founded and headquartered in Örnsköldsvik, Sweden, Clavister pioneered one of the first firewalls and continues to build robust and adaptive cybersecurity solutions since. Empowering a growing ecosystem of partners and resellers, we are serving customers in more than 100 countries with deployments across the public sector, energy, telecom and defence sectors.

The stock, Clavister Holding AB, is listed at Nasdaq First North Growth Market. FNCA Sweden AB is the Company's Certified Advisor.
