

## **FlexQube receives follow-up order worth \$455,000 from U.S. customer**

FlexQube has received a new follow-up order from the same U.S. customer, one of the world's largest e-commerce and logistics companies based in the United States, that placed several pilot orders already. The new order amounts to approximately \$455,000 and will be delivered during the first quarter of 2026.

The order will be included in FlexQube's order intake for the fourth quarter of 2025 and consists of products from the company's robotics product line, including the Navigator AMR.

### **About FlexQube**

FlexQube is a technology company headquartered in Gothenburg, Sweden with subsidiaries in USA, Mexico, Germany and England. FlexQube offers solutions for cart-based material handling using a patented modular concept. FlexQube develops and designs customized solutions for both robotic and mechanical cart logistics. Through the own developed and unique automation concept FlexQube can offer robust and self-driving robotic carts. FlexQube has more than 1200 customers in 40 countries with primary markets being North America and Europe. FlexQube's customers can be found within the manufacturing industry, distribution- and warehousing. We represent some of the most successful companies in the world with a significant share being represented on the Fortune 500 list. These companies exist within automotive, electric vehicle manufacturing, online retail, heavy-duty trucks, industrial automation and retail logistics.
