

## TTP WILL PRESENT THE POC SYSTEM MICROFLEX AT THE ECCMID IN BARCELONA APRIL 27-30

TTP (The Technology Partnership Ltd) will present the POC-system MicroFlex at the European Congress of Clinical Microbiology and Infectious Diseases (ECCMID) in Barcelona, April 27-30.

As the world's premier Clinical Microbiology & Infectious Diseases event, ECCMID brings together experts from many fields to present their latest findings, guidelines, and experiences to an audience of over 14,000 colleagues.

TTP will be exhibiting at booth E23 at ECCMID where they will present the Point-of-Care (POC) system MicroFlex and ecoFlex. ### About Us

Prolight Diagnostics AB develops innovative Point-of-Care (POC) systems. These are small, portable instruments and disposable cartridges for performing in-vitro diagnostic (IVD) tests from a drop of blood.

We want to offer the foremost POC systems on the market for quick, reliable diagnosis of acute events. Our launch product will be for the measurement of troponin, to aid in the rule-in and rule-out of myocardial infarction.

The company's share is traded on the NGM Nordic SME marketplace, under the ticker PRLD.
