

## Xbrane has carried out a directed share issue raising gross proceeds of approximately SEK 170 million

**Xbrane Biopharma AB (publ) ("Xbrane" or the "Company") has, based on the authorization granted by the annual general meeting held on 5 May 2022, and in accordance with what the Company indicated in a press release on 18 October 2022, successfully carried out a directed share issue of approximately SEK 170 million at a subscription price of SEK 72 per share (the "Directed Share Issue"). The subscription price was determined through an accelerated book-building procedure. A number of Swedish and institutional investors, including Systematic Group AB (Ashkan Pouya), Swedbank Robur Fonder, Cicero Fonder, TIN Fonder and Lancelot Asset Management have subscribed for shares in the Directed Share Issue.**

The board of directors of the Company have, pursuant to the authorization granted by the annual general meeting held on 5 May 2022, resolved on the Directed Share Issue of 2,361,112 new shares at a subscription price of SEK 72 per share. Through the Directed Share Issue the Company will receive gross proceeds of approximately SEK 170 million before transaction related costs. The Board of Directors deems, in light of the accelerated bookbuilding procedure completed by Kempen & Co and Pareto Securities acting as Joint Global Coordinators and Joint Bookrunners, that the Directed Share Issue, including the determination of the subscription price, has been determined on market terms. The Company's Board of Directors has made an overall assessment and carefully considered the possibility to raise capital through a preferential rights issue, but considers that it, for example, would entail a risk that the Company cannot provide for its capital needs and at the same time maintain an optimal capital structure. As the Directed Share Issue among other things, will (i) provide the Company with significant and reputable long-term shareholders, which diversifies and strengthens the Company's shareholder base, (ii) further strengthen the Company's financial position to enable the Company to continue executing on developing and commercialization of biosimilars, (iii) be conducted in a more time efficient way and at a lower cost and with less complexity than a preferential rights issue, and (iv) ensure a strong balance sheet in the current market situation, the Board of Directors' overall assessment is that the reasons for carrying out the Directed Share Issue outweigh the reasons that motivate the main rule that share issues are to be made with preferential rights for the shareholders.

The purpose of the transaction is to finance the preparations for commercialization in Europe and the continued development of preclinical programs. More specifically, the net proceeds from the transaction are intended to finance the following activities:

- i. Build-up of Xlucane™ (Ximluci®) launch volume and inventory in preparation for commercialization in Europe (approximately 60%)
- ii. Progression of BII801 program until completion of pre-clinical development (approximately 10%)
- iii. Continued development of oncology portfolio (approximately 20%)
- iv. General corporate purposes (approximately 10%)

"We are grateful for the support and trust from existing and new investors in this capital raise that will primarily support the activities related to launch of Ximluci® across Europe in first quarter of 2023." says Martin Åmark, CEO of Xbrane.

The Directed Share Issue will entail a dilution of approximately 8.6 percent. The number of shares and votes outstanding in the Company will increase by 2,361,112 from 25,144,906 to 27,506,018. The share capital will increase by approximately SEK 529,328 from approximately SEK 5,637,137 to approximately SEK 6,166,466. The subscription price corresponds to a discount of 10 percent in relation to the closing price on Nasdaq Stockholm on 18 October 2022.

In connection with the Directed Share Issue, the Company has, subject to customary exceptions, agreed to a lock-up undertaking on future share issuances for a period of 180 days following completion of the Directed Share Issue. Members of the Company's board of directors and management, have, subject to customary exceptions, agreed to not sell their shares in the Company for a period of 180 days after the date of registration of the shares issued in connection with the Directed Share Issue with the Swedish Companies Registration Office. Existing shareholder STADA Arzneimittel AG has, subject to customary exceptions, agreed to not sell their shares in the Company for a period of 90 calendar days after the date of registration of the shares issued in connection with the Directed Share Issue with the Swedish Companies Registration Office.
