

CYBER1 Next-Gen Security Operations Centre receives ISO 27001 certification

Stockholm, Sweden – 8th of August, 2023 – Cyber Security 1 AB (publ) (“The Company”) (“CYBER1”) (Nasdaq First North: CYB1), an international leader in cyber security, announces that its Next-Gen Security Operations Centre (C1 SOC) has been certified by the International Organisation for Standardisation (ISO), related to its 27001 approach on information security management.

This achievement demonstrates CYBER1’s commitment to attain the highest industry standards for safeguarding data and protecting against cyber threats. This accomplishment also underscores C1 SOC’s effectiveness in delivering robust and reliable security measures, to ensure the safety and integrity of our clients’ critical assets.

This confirmation follows the announcement of a multi-year partnership with a leading security company in Africa (more information can be found [here](#)).

As a certified Next-Gen SOC, there are a number benefits to be realised for our customers:

- **Enhanced Data Protection:** With ISO 27001 in place, CYBER1 reinforces its dedication to safeguarding clients’ information assets. This ensures that data breaches and unauthorized access are significantly mitigated, reducing the risk of potential financial and reputational damage to our clients.
- **Continuous Improvement and Adaptability:** ISO 27001 certification requires ongoing assessment and improvement of our information security management system. This means C1 SOC will always be up-to-date with the latest threat landscapes and security best practices, providing our customers with cutting-edge solutions tailored to their evolving needs.
- **Improved Business Processes:** The rigorous certification process necessitates a comprehensive review of our security practices and business processes. As a result, our customers benefit from increased efficiency, streamlined operations, and reduced downtime, translating to cost savings and improved business outcomes.
- **Trust and Credibility:** C1 SOC’s ISO 27001 certification is a symbol of trust and credibility in the cyber security industry. It demonstrates our commitment to maintaining the highest standards of security and our dedication to client satisfaction, earning us the trust of our existing and potential customers alike.
- **Compliance with Regulatory Requirements:** Achieving ISO 27001 certification also ensures that C1 SOC is in compliance with various industry regulations and standards, reinforcing our SOC’s ability to meet the diverse security requirements of different sectors and geographies.

"We are thrilled to receive ISO 27001 certification for our Security Operations Centre," said Simon Perry, CTO of CYBER1. "This achievement reflects our relentless pursuit of excellence in providing the latest innovative cyber security services to our customers, underpinned by a robust security infrastructure. With this certification, we are excited to further develop our service offering across our customers globally."
