

Changes in Precise Biometrics' management team

Fredrik Sjöholm has today announced his intention to pursue new challenges outside of Precise to assume the role as CEO for another company, and thereby leaving the role as EVP and CCO Algo for Precise. Fredrik will remain in his role during his notice period, which amounts to six months.

"I would like to thank Fredrik for his contributions to Precise, the exchanges we had during the year, and his contribution to the Algo business. I and the entire Precise team, including all our sales offices around the world, wish him well in his future endeavours," says Patrick Höjjer, CEO of Precise.

"I am pleased and proud of the journey I have had with the Precise team, our customers, and partners. Precise has a world-leading offering in fingerprint technology and I am confident that the company will continue to capitalize on that position, both in existing and new markets and product areas going forward," says Fredrik Sjöholm, departing EVP and CCO Algo of Precise.
