

NORDIC IRON ORE APPOINTS INTERIM ENVIRONMENTAL MANAGER

Nordic Iron Ore has assigned Geosyntec to handle the environmental permit for the Blötberget mine, and to handle the outcome from the Land and Environment Court regarding the application for prolonged work time for the water facilities with the goal of being able to start construction work of the mine according to the current plan at the end of 2025. The assignment is now being expanded with to appointment of Malin Ekåsen as Interim Environmental Manager while the recruitment process for a permanent Director EHS (Environmental, Health, Safety) is ongoing. Malin is a consultant at Geosyntec and has worked as an environmental consultant for about 20 years with, among other things, environmental strategic advice, environmental permits and contaminated land and buildings. In her role as Interim Environmental Manager, she will report directly to CEO Ronne Hamerslag.

About Geosyntec Consultants

Geosyntec Consultants is a global consulting firm founded in the USA in 1983, with a workforce of over 2,600 engineers, scientists, and technical and project support professionals. We operate from more than 130 offices worldwide, including in the USA, Canada, the United Kingdom, Ireland, Sweden, Spain, Finland, the United Arab Emirates, Saudi Arabia, and Australia. Geosyntec delivers advanced technical consulting services in environmental management (soil, groundwater, sediment, surface water, and air), occupational health and safety, quality, geotechnical engineering, and hydrogeology, serving both private and public sector clients. The company is 40% employee-owned and 60% externally owned. Our success is driven by our ability to attract and retain some of the world's most innovative scientists and engineers, many of whom are recruited from leading global universities. Geosyntec's leadership and project teams are composed of these experts, all committed to delivering the highest standards of quality and client satisfaction across every project.

About Nordic Iron Ore

Nordic Iron Ore AB is a mining company with the goal of resuming and developing iron ore mining in the Ludvika area. The company has all the necessary permits in place for the initial project at Blötberget and will be able to produce an ultra high-grade iron ore concentrate suitable for the production of fossil-free steel. The company is also evaluating the possibility of extracting a bi-product concentrate with high levels of phosphorus and rare earth elements. In addition to Blötberget, the company has mining concessions for the Väsmanfield and Håksberg, which are intended to be put into operation after Blötberget is in production.
