## **INTERIM REPORT Q2 2023/2024**

1 AUGUST 2023-31 OCTOBER 2023

# OVERVIEW FINANCIAL RESULTS FOR GOOBIT GROUP AB (PUBL) ("THE COMPANY")

#### Q1, 1 AUGUST 2023-31 OCTOBER 2023

- COMPARED WITH THE CORRESPONDING PERIOD OF THE PREVIOUS YEAR -

- Net sales amounted to 26.7 MSEK (27.5).
- Operating profit amounted to -2.2 MSEK (-2.1). The period includes lawyer costs attributable to the rights issue which are considered non-recurring.
- Income after financial items amounted to -2.2MSEK (-2.2).
- Earnings per share before and after dilution amounted to -0.008 SEK (-0.02).

#### Important Events During the Period

- In August, Goobit announced that Jan Tibbling, who is a lawyer and now a board member, had been appointed as the Company's Money Laundering Reporting Officer ("MLRO"). This decision strengthens the Company's corporate governance as well as its commitment to strict regulatory compliance. As MLRO, Tibbling will use his experience to strengthen Goobit's anti-money laundering strategies and methods.
- Goobit's CEO, Christian Ander, has decided to receive his salary in Bitcoin. Christian Ander's decision highlights Bitcoin's growing influence in traditional financial systems and Goobit's commitment to its adoption. This choice is meant to inspire industry leaders and potentially expedite Bitcoin's wider acceptance.
- Goobit is actively preparing for the implementation of the European Union's MiCA crypto-assets regulation, coming into effect in 2024. Its subsidiary, Goobit AB, will integrate pan-European identification methods to enable safe and seamless onboarding of new customers with the highest Know-Your-Customer ("KYC") standards. Goobit is pleased to announce that the Company entered an agreement with Scrive, a leading KYC provider in the Nordics, to enable Swedish customers with its new Know-Your-Customer methods.

#### Important Events After the Period

- Goobit has successfully completed its rights issue which ended on November 10, 2023. The Rights Issue was notably oversubscribed at 124.45% of the planned target, raising a total of 9 864 489.53 SEK before issue costs. This shows the strong support and trust from the Company's existing shareholders. The funds raised through this Rights Issue will be deployed to fund operations, accelerate growth, enhance products, add additional payment methods, as well as solidifying the Company's market position.
- Goobit's shares have been listed on Nasdaq First North since 2021. The Company has now successfully transitioned its listing venue to the Nordic Growth Market ("NGM"), a subsidiary of Börse Stuttgart. Opting for NGM will provide Goobit with a higher level of service and a more Bitcoin and crypto-friendly partner to collaborate with.
- Goobit participated in marketing and communication activities at Dreamhack, one of Europe's largest esports events. This initiative led to the Company experiencing significantly higher trading volume the days following the event, showing a vast untapped opportunity in this market segment.

#### Dear Shareholders,

As we close another eventful quarter, I am excited to share with you the strides we have made at Goobit Group, navigating through the evolving landscape of Bitcoin and digital assets. Our journey, marked by strategic foresight and innovation, reflects our unwavering commitment to this dynamic sector.

In recent months, our decision to invest significantly in Bitcoin was driven by a comprehensive market analysis and an understanding of the regulatory environment. Amidst global economic uncertainties, Bitcoin has proven to be a prudent hedge against market volatility, affirming our belief in its potential as a stable and strategic investment. This move is not just about diversifying our portfolio; it's a testament to our belief in the transformative power of digital currencies.

Our approach to risk management in the crypto-asset landscape remains vigilant and proactive. We are constantly monitoring market trends to swiftly respond to changes, ensuring that our investments and interests are safeguarded. This is crucial, particularly given the potential for long-term fluctuations in the Bitcoin market. Our strategies are designed to minimize exposure and maximize returns, aligning with our commitment to deliver sustainable value to our shareholders.

The regulatory landscape for digital currencies is also evolving rapidly. The upcoming MiCA regulation in the EU and the discussions at the Bank for International Settlements about central banks holding Bitcoin are indicators of significant shifts in the sector. These developments will undoubtedly impact Bitcoin's role within the European digital asset landscape, and we are closely monitoring these changes to adapt our strategies accordingly.

Another critical development is the Basel Committee's finalized prudential standards for banks' exposure to crypto-assets, including Bitcoin. Set for implementation by 2025, these standards mark a pivotal moment in the financial industry, reshaping how financial institutions engage with digital assets. This regulatory evolution further cements Bitcoin's relevance in the financial ecosystem and opens new doors for institutional engagement.

Our recent strategic moves, including the successful capital raise resulting in an oversubscription of 125%, underscore the trust and confidence our investors place in our vision. This capital injection will fuel our continued growth and innovation in the digital asset space.

We are also thrilled to announce the approval of Goobit's transition from Nasdaq First North to Nordic Growth Market ("NGM"), a subsidiary of Börse Stuttgart. This milestone enhances our visibility and opens up new avenues for expansion, aligning perfectly with our growth trajectory.

In line with these developments, we have integrated leading-edge technologies like Scrive, an international electronic identification method, into our systems. This integration is a strategic step in anticipation of the MiCA regulation and positions us strongly in the burgeoning European market. It underscores our commitment to regulatory compliance and enhances our service accessibility and standards.

Christian Ander, CEO

My decision to receive my entire salary in Bitcoin is a strategic reflection of our company's confidence in Bitcoin's role in traditional financial systems. This move highlights Bitcoin's potential as a hedge against the volatility of traditional currencies and emphasizes its practical advantages, such as reduced transaction costs. Moreover, in line with this commitment, we are pleased to announce that our Bitcoin holdings have reached a significant part of our balance sheet, demonstrating our belief in its long-term potential and its significant role in shaping the future of finance.

We recently engaged in a meaningful dialogue with the Swedish Civil Contingencies Agency (MSB), underscoring our efforts to promote Bitcoin's role in establishing a robust digital infrastructure. This meeting was a significant step in our commitment to Bitcoin adoption and compliance with Anti-Money Laundering (AML) measures.

In conclusion, our journey this quarter has been marked by significant achievements and strategic decisions that affirm our dedication to navigating the ever-evolving Bitcoin and crypto-assets landscape. We remain committed to leveraging market trends, regulatory advancements, and robust risk management to ensure sustained growth and value creation for all our stakeholders.

Thank you for your continued support and trust in our journey.

Warm regards,

Christian Ander, CEO December 2023 Goobit Group AB (publ)

### Market outlook

The Bitcoin market outlook for the second quarter of 2023/2024 appears significantly bullish, driven by a confluence of market trends, global political developments, and innovative technological advancements.

#### **Market Trends and Predictions**

Bitcoin's journey through 2023 has been marked by notable gains, with a price increase from around \$16,500 to over \$40,000. December, historically a strong month for Bitcoin, is expected to follow this positive trend, fueled by factors like institutional interest and anticipation of a Bitcoin halving event. Analysts predict new all-time highs for Bitcoin, with price targets ranging from \$100,000 to \$150,000, signaling a robust bullish outlook.

#### **Global Political Developments**

Javier Milei's Election in Argentina: Milei's pro-Bitcoin stance as Argentina's President has positively impacted the market, with Bitcoin's price experiencing a 3% surge following his election. His views on economic freedom and criticism of central banks resonate well with the principles of Bitcoin, suggesting potential policy shifts favorable to Bitcoin in Argentina.

Meanwhile, Samson Mow's Jan3 are continuing their efforts to help nation states develop Bitcoin strategies for their countries:

In Suriname: JAN3's engagement with Suriname's government to develop a comprehensive Bitcoin strategy is a positive development, indicating a move towards broader Bitcoin adoption in the region.

In Colombia: Colombia's increasing use of Bitcoin, including the highest number of Bitcoin ATMs in Latin America, highlights the region's growing interest in the cryptocurrency.

#### El Salvador's Bitcoin Initiatives

El Salvador's ambitious \$1 billion Bitcoin mining project, utilizing renewable energy, reinforces the country's commitment to Bitcoin. This project is expected to bring financial inclusion, jobs, and foreign investment, further solidifying Bitcoin's role in the national economy.

#### Ocean Mining's Decentralized Mining Pool

Ocean Mining, backed by notable figures like Jack Dorsey, has announced a decentralized mining pool, OCEAN, aimed at giving miners control over their block rewards. This pool, being non-custodial, contrasts with traditional centralized pools, offering a more transparent and decentralized approach to Bitcoin mining. This initiative is seen as a significant step towards solving the issue of centralization in Bitcoin mining pools, which is crucial for maintaining Bitcoin's fundamental principles like censorship resistance.

#### Conclusion

The overall outlook for Bitcoin in Q4 2023 is strongly bullish. The combination of Bitcoin's historical performance, the optimistic market predictions, key global political developments, and innovative technological advancements in mining are poised to reinforce Bitcoin's position in the global financial landscape and potentially drive its value to unprecedented heights.
