# GAMING CORPS ENTERS CZECH REPUBLIC THROUGH PARTNERSHIP WITH APOLLO GAMES

**Gaming Corps AB (publ) (“the Company” or “Gaming Corps”) has entered into an agreement with Apollo Games, for the first time taking a selection of its games to players in the Czech Republic. The strategic partnership will create opportunities for both companies, combining Apollo Games' strong local roots with Gaming Corps' innovative Game portfolio.**

Apollo Games Casino has been a familiar name in Czech gaming since its inception in 2021. The company built its reputation producing video slot machines before growing into the online space, and its long-standing presence in the market provides valuable insight into what local players expect.

The Czech Republic is an established regulated gambling market with a significant online sector. Online gambling accounted for approximately 60% of the country’s CZK 68 billion in gross gaming revenue in 2025[1]. Gaming Corps’ launch through Apollo Games marks its first entry into this market and further expands its distribution across regulated European markets.

“Entering the Czech Republic marks another important step in Gaming Corps’ expansion in regulated markets. Our focus is on building partnerships that broaden our distribution and create long-term commercial opportunities for our game portfolio. Apollo Games’ local market knowledge and collaborative approach make them a strong partner for our launch. We look forward to introducing our games to Czech players and developing the partnership over time,” says Juha Kauppinen, CEO of Gaming Corps.

"At Apollo Games, we are always looking to deliver fresh and exciting content to our players, and Gaming Corps' portfolio does exactly that – we are delighted to be their chosen primary partner to enter into the Czech market with, a source of pride for us. Their distinctive games, such as the hugely popular 3 Pigs series offer something genuinely different, and we cannot wait to see the impact with our players," says Stanislav Jurecka, iGaming Head of Product Development at Apollo Games.
