

Comparative Figures Ahead of Ratos Q1 2026 Interim Report

Ratos provides comparative figures in advance of the interim report for the first quarter of 2026, scheduled for May 4. This information is intended to support a clearer understanding of each Ratos portfolio company's financial performance.

Figures will be reported per individual portfolio company, consistent with Ratos new investment company structure.

Beginning with the first quarter of 2026, the summary of company performance will also be available by industry segment, such as Infrastructure, alongside company-specific financials. Moving forward, eliminations will be shown as a separate row prior to the summary for total Ratos Group. All central costs will be consolidated and reported at the Group level, rather than being allocated by business area or industry segment.
