

HAUTALAMPI PERMITTING PROCESS PROGRESSING – SUPPLEMENTARY INFORMATION REQUEST RECEIVED

Stockholm, 2 April 2026 – The mining company Eurobattery Minerals AB (Nordic Growth Market: “BAT” and Börse Stuttgart: “EBM”; in short: “Eurobattery Minerals” or the “Company”) today announces that its wholly owned subsidiary FinnCobalt Oy (“FinnCobalt”) has received a supplementary information request from the Finnish Supervisory Agency (Lupa- ja valvontavirasto) in relation to the Environmental Permit Application (EPA) for the Hautalampi battery mineral project in Finland.

Such requests are a standard and expected part of the permitting process, reflecting the thorough and transparent regulatory framework governing mining projects in Finland and across the EU. Similar clarification rounds are a natural continuation of the review process following the submission of the EPA in April 2024 and the supplementary documentation provided in July 2025.

The Company has initiated an internal review of the request and is working closely with its specialized technical consultants and engineering advisors to assess the scope of the additional information required. Eurobattery Minerals will provide the requested clarifications and any supporting documentation in due course, following a thorough assessment of the authority’s request.

The permitting process is advancing in accordance with the regulatory procedure applicable to major mining projects in Finland, and the Company remains fully committed to providing comprehensive and high-quality responses to the authority’s requests.

The Hautalampi project, located in the historic Outokumpu mining region in Finland, is being developed as a future European source of responsibly produced nickel, cobalt and copper—critical raw materials for the sustainability transition. FinnCobalt has applied for Strategic Project designation under the EU Critical Raw Materials Act (CRMA), underscoring the project’s European strategic relevance.

Language versions

Eurobattery Minerals AB publishes information in English, Swedish, and German for the convenience of our shareholders and stakeholders. In the event of any discrepancies or inconsistencies between the language versions, the English version shall prevail.

**About Eurobattery Minerals**

Eurobattery Minerals AB is a Swedish mining company listed on Swedish Nordic Growth Market ([BAT](#)) and German Börse Stuttgart ([EBM](#)). With the vision to make Europe self-sufficient in responsibly mined minerals, the Company's focus is to realize numerous mining projects in Europe to supply critical raw materials and, by doing so, power a cleaner and more just world.
